Analysis

1. During 1906 and 1907, what two methods did the Forest Service use to protect the Kaibab deer?

Theodore Roosevelt created a national game reserve and they exterminated the predators of the Kaibab deer.

1. Why did you expect the population of deer to increase after 1905?

Because the predators of the deer were gone.

1. Why did you expect the population of deer to decline after 1925, although the population of predators increased?

The deer were overpopulated and many of the deer starved because the population was too large.

1. Why did you think the deer population was in 1925 was 100,000 when the population of predators had a carrying capacity of 30,000?

There was a population surplus. The deer were able to support the population of the predators.

1. Why did the deer population decline after 1925?

The population was too large. The population was eating more than the carrying capacity of the predators.
