Multidimensional Databases and Data Warehousing Christian Jensen,Torben Bach Pedersen,Christian Thomsen,2022-05-31 The present book s subject is multidimensional data models and data modeling concepts as they are applied in real data warehouses The book aims to present the most important concepts within this subject in a precise and understandable manner The book s coverage of fundamental concepts includes data cubes and their elements such as dimensions facts and measures and their representation in a relational setting it includes architecture related concepts and it includes the querying of multidimensional databases The book also covers advanced multidimensional concepts that are considered to be particularly important This coverage includes advanced dimension related concepts such as slowly changing dimensions degenerate and junk dimensions outriggers parent child hierarchies and unbalanced non covering and non strict hierarchies The book offers a principled overview of key implementation techniques that are particularly important to multidimensional databases including materialized views bitmap indices join indices and star join processing The book ends with a chapter that presents the literature on which the book is based and offers further readings for those readers who wish to engage in more in depth study of specific aspects of the book s subject Table of Contents Introduction Fundamental Concepts Advanced Concepts Implementation Issues Further Readings

ECGBL2013-Proceedings of the 6th European Conference on Games Based Learning Patrick Felicia,2012 [ECGBL2015-9th European Conference on Games Based Learning](#) Robin Munkvold and Line Kolås,2015-09-18 These proceedings represent the work of researchers participating in the 9th European Conference on Games Based Learning which is being hosted this year by Nord Trondelag University College Steinkjer Norway on the 8 9 October 2015 The Conference has become a key platform for individuals to present their research findings display their work in progress and discuss conceptual advances in many different areas and specialties within Games Based Learning It also offers the opportunity for like minded individuals to meet discuss and share knowledge ECGBL continues to evolve and develop and the wide range of papers and topics will ensure an interesting two day conference In addition to the main streams of the conference there are mini tracks focusing on the areas of the design of multiplayer collaborative serious games applied Games and gamification the teacher s role in game based learning games for STEM Science Technology

Engineering Mathematics learning assessment of digital game based learning and pervasive and ubiquitous gaming for learning In addition to the presentations of research we are delighted to host the third year of the Serious Game competition which provides an opportunity for educational game designers and creators to participate in the conference and demonstrate their game design and development skills in an international competition This competition is again sponsored by SEGAN Serious Games Network With an initial submission of more than 60 games 28 finalists will present their games at the conference Prizes will be awarded to the games judged to demonstrate the best quality and originality of game play itself and the positioning and articulation of the game s contribution to the educational domain With an initial submission of 190 abstracts after the double blind peer review process there are 75 research papers 15 PhD research papers 4 Non Academic papers and 8 work in progress papers published in these Conference Proceedings These papers represent research from more than 40 countries including Australia Austria Belgium Brazil Bulgaria Canada Czech Republic Denmark Finland France Germany Greece Hungary Ireland Israel Italy Japan Malaysia Norway Portugal Russia Saudi Arabia Slovakia Slovenia South Africa Spain Sweden Switzerland Taiwan ROC The Netherlands The Netherlands United Arab Emirates UK and USA

ECMLG 2011 Proceedings of the 7th European Conference on Management Leadership and Governance Charles Despres, 2011-06-10 **ECGBL2011-Proceedings of the 5th European Conference on Games Based Learning** Dimitris Gouscos, **Encyclopedia of Information Science and Technology, Second Edition** Khosrow-Pour, D.B.A., Mehdi, 2008-10-31 This set of books represents a detailed compendium of authoritative research based entries that define the contemporary state of knowledge on technology Provided by publisher *Institutional Transformation through Best Practices in Virtual Campus Development: Advancing E-Learning Policies* Stansfield, Mark, Connolly, Thomas, 2009-05-31 Provides cost effective and sustainable learning procedures vital to ensuring long term success for both teacher and student covers the latest research and findings in relation to best practice examples and case studies *Advances in Data Analysis with Computational Intelligence Methods* Adam E Gawęda, Janusz Kacprzyk, Leszek Rutkowski, Gary G. Yen, 2017-09-21 This book is a tribute to Professor Jacek urada who is best known for his contributions to computational intelligence and knowledge based neurocomputing It is dedicated to Professor Jacek urada Full Professor at the Computational Intelligence Laboratory Department of Electrical and Computer Engineering J B Speed School of Engineering University of Louisville Kentucky USA as a token of appreciation for his scientific and scholarly achievements and for his longstanding service to many communities notably the computational intelligence community in particular neural networks machine learning data analyses and data mining but also the fuzzy logic and evolutionary computation communities to name but a few At the same time the book recognizes and honors Professor urada s dedication and service to many scientific scholarly and professional societies especially the IEEE Institute of Electrical and Electronics Engineers the world s largest professional technical professional organization dedicated to advancing science and technology in a broad spectrum of areas and fields The volume

is divided into five major parts the first of which addresses theoretic algorithmic and implementation problems related to the intelligent use of data in the sense of how to derive practically useful information and knowledge from data In turn Part 2 is devoted to various aspects of neural networks and connectionist systems Part 3 deals with essential tools and techniques for intelligent technologies in systems modeling and Part 4 focuses on intelligent technologies in decision making optimization and control while Part 5 explores the applications of intelligent technologies

FPGA Based Accelerators for Financial Applications Christian De Schryver,2015-07-30 This book covers the latest approaches and results from reconfigurable computing architectures employed in the finance domain So called field programmable gate arrays FPGAs have already shown to outperform standard CPU and GPU based computing architectures by far saving up to 99% of energy depending on the compute tasks Renowned authors from financial mathematics computer architecture and finance business introduce the readers into today s challenges in finance IT illustrate the most advanced approaches and use cases and present currently known methodologies for integrating FPGAs in finance systems together with latest results The complete algorithm to hardware flow is covered holistically so this book serves as a hands on guide for IT managers researchers and quants programmers who think about integrating FPGAs into their current IT systems

Data Warehousing and Mining: Concepts, Methodologies, Tools, and Applications Wang, John,2008-05-31 In recent years the science of managing and analyzing large datasets has emerged as a critical area of research In the race to answer vital questions and make knowledgeable decisions impressive amounts of data are now being generated at a rapid pace increasing the opportunities and challenges associated with the ability to effectively analyze this data

Enabling Manufacturing Competitiveness and Economic Sustainability Hoda A. ElMaraghy,2011-09-29 The changing manufacturing environment requires more responsive and adaptable manufacturing systems The theme of the 4th International Conference on Changeable Agile Reconfigurable and Virtual production CARV2011 is Enabling Manufacturing Competitiveness and Economic Sustainability Leading edge research and best implementation practices and experiences which address these important issues and challenges are presented The proceedings include advances in manufacturing systems design planning evaluation control and evolving paradigms such as mass customization personalization changeability re configurability and flexibility New and important concepts such as the dynamic product families and platforms co evolution of products and systems and methods for enhancing manufacturing systems economic sustainability and prolonging their life to produce more than one product generation are treated Enablers of change in manufacturing systems production volume and capability scalability and managing the volatility of markets competition among global enterprises and the increasing complexity of products manufacturing systems and management strategies are discussed Industry challenges and future directions for research and development needed to help both practitioners and academicians are presented

Management Innovations for Healthcare Organizations Anders Örténblad,Carina Abrahamson Löfström,Rod Sheaff,2015-11-19 Innovations in management are

becoming more numerous and diverse and are appearing in organizations providing many different kinds of products and services The purpose of this book is to examine whether some widely promoted examples of these management innovations ranging from techniques such as Kaizen to styles of leadership and the management of learning can usefully be applied to organizations which provide healthcare and applied in different kinds of health systems Management Innovations for Healthcare Organizations is distinctive in selecting a wide and diverse range and selection of managerial innovations to examine No less distinctively it makes an adaptive critical scrutiny of these innovations Neither evangelist nor nihilist the book instead considers how these innovations might be adapted for the specific task of providing healthcare Where evidence on these points is available the book outlines that too Consequently the book takes an international approach with contributions from Europe the Middle East Australia and North America Each contributor is an expert in the management innovation which they present This combination of features makes the book unique

Enterprise, Business-Process and Information Systems Modeling Terry Halpin, Selmin Nurcan, John Krogstie, Pnina Soffer, Erik Proper, Rainer Schmidt, Ilia Bider, 2011-06-17 This book contains the refereed proceedings of the 12th International Conference on Business Process Modeling Development and Support BPMDS 2011 and the 16th International Conference on Exploring Modeling Methods for Systems Analysis and Design EMMSAD 2011 held together with the 23rd International Conference on Advanced Information Systems Engineering CAiSE 2011 in London UK in June 2011 The 22 papers accepted for BPMDS were selected from 61 submissions and cover a wide spectrum of issues related to business processes development modeling and support They are grouped into sections on BPMDS in practice business process improvement business process flexibility declarative process models variety of modeling paradigms business process modeling and support systems development and interoperability and mobility The 16 papers accepted for EMMSAD were chosen from 31 submissions and focus on exploring evaluating and enhancing current information modeling methods and methodologies They are grouped in sections on workflow and process modeling extensions requirements analysis and information systems development requirements evolution and information systems evolution data modeling languages and business rules conceptual modeling practice and enterprise architecture
