We have to acknowledge that even the smartest people among us are incapable of familiarizing himself with all these new data. Fortunately we are only required to deal with a very small amount of that vast number in our work and life. As those who devote himself to the field of information technology and management engineering I sincerely believe that it is our responsibility to make efforts to accelerate the advance of science in such fields. The 2014 international Conference on Information Technology and Management Engineering thanks to the hard work of its committee will be held on April 26 and 27 in Hong Kong. The ITME2014 covers a wide range of topics such as network protocols information theory and coding theory network security management theory project management public management knowledge management etc. It is a great honor to us that numerous people from various countries including many famous experts and excellent researchers have shown their interest in this convention and submitted their latest studies to us as their support. Among these studies we have selected about a hundred to be finally included in this proceeding after reviewing and discussing. We believe that this collection of work will be of great value not only to the participants of ITME2014 but also to those who has a chance of
