we help the university museum director navigate those trends The university donor relationship what can we learn from a study of donor expectations and the dynamics of university donor relationships in contemporary society How is the relationship between the university museum and the broader external community changing How is the university museum contributing to or detracting from the overall relationship between the university and the community What role is the university museum playing in terms of public communication of research especially public science communication This book is for all those who work in benefit from or are interested in university museums In particular it is hoped that the book will help university museum leaders who are embarking on strategic plans understand the common issues that are currently affecting their peers and provide some context and guidance to those leaders as they chart their own paths for the future and to advance larger goals For faculty it will show how the museum can help improve undergraduate teaching and graduate student training via highlights and illustrations of new ways in which faculty departments are cooperating and partnering with their campus museums and from a university administration point of view how the museum can help the university achieve its bigger strategic goals such as helping increase the percentage of successful faculty grant applications **TV Guide** ,1981
