First Star to the Right and Straight on Till Morning At the 90 mile vet check she sat in the middle of the road crying claiming extreme illness and trying to avoid her nightmarish fears her horse would die of founder or colic or anything The last ten miles of trail stretched forever in her mind black like licorice taffy After a large measure of TLC from her patient and understanding crew she and the gelding were out of the check and on the trail again The entire universe shrank to center on the pair in the moonlight Time stopped and the world faded into nothingness They were running in a small ever changing pocket of existence the rhythm of his hooves the heartbeat of that universe Ribbons and trail appeared before them and lost substance as they moved past For the rider clinging to the saddle there was no thought no pain no emotion only the instinctive drive to chase past each ribbon as it appeared Suddenly her horse jumped sideways eyes and ears frozen forward Awakened from her trance she oriented herself on his suspected woods troll a familiar embankment that meant they were a half mile from home Easing him past the scary object she sent the gelding on clinging to his neck As his soft lope swept them across the finish line she wanted to laugh out loud or cry but was unable to summon the strength for either A few small tears trickled down her cheek the only sign of the enormous pride she felt inside Becky Huffman Endurance rider wife mother of two and student of author Donna Snyder Smith The Howell Equestrian Library **The Software Encyclopedia** ,1986 Catalog of Copyright Entries. Emsellem, M.D.,2006-07-28 Walk into any first period high school classroom and it s obvious teenagers are exhausted Sleep deprivation is an epidemic as widespread as obesity and just as damaging Fortunately science has answers and Dr Helene Emsellem has solutions that all parents can use Affecting the lives of more than 41 million adolescents in the United States alone sleep deprivation is a chronic problem for kids today We know this intuitively as we watch teenagers frantically juggle a hectic social calendar with the overwhelming demands of school work and chores School performance around the country is suffering but it s not just grades that are at risk Sleep deprivation has been found to affect nearly every aspect of a teenager s life from emotional stability and behavioral issues to physical well being and the potential for drug and alcohol abuse For years we ve blamed many of these adolescent characteristics on the natural maturing process or changing hormones And while chemicals do surge through the body creating strong effects sleep the right amount and the right kind has now been targeted for its prime importance in overall success and well being **Catalogue** Montgomery Ward,1926
