A Guide to Clinical Assessment and Professional Report Writing in Speech-Language Pathology Renee Fabus, 2024-06-01
Learning to assess speech and language disorders and write diagnostic reports may be an overwhelming experience especially when most texts don't cover both topics at once. With that in mind, A Guide to Clinical Assessment and Professional Report Writing in Speech Language Pathology Second Edition combines the latest assessment protocols and diagnostic techniques with vital diagnostic report writing tools into a single definitive guide. Cyndi Stein, Rubin, Renee Fabus, and their contributors recognize that clinical assessment is inextricably linked to report writing and have updated this Second Edition to synthesize the two. Following the introductory chapters which discuss the basics of assessment and report writing, each subsequent chapter focuses on a particular disorder, provides in-depth assessment tools, and presents a corresponding sample report. Key Features: An inventory and explanation of formal and informal assessment measures; A glossary of key vocabulary; Sample case histories with assessment tools; Relevant and useful interview questions; Each disorder's background and characteristics; Assessment parameters; A differential diagnosis section; A model report. The accessible format of A Guide to Clinical Assessment and Professional Report Writing in Speech Language Pathology Second Edition will help students learn how to assess and document speech and language disorders and will also make for a perfect reference for them as clinicians for years to come. Diagnosis and Evaluation in Speech Pathology William O. Haynes, Rebekah Hand, Pindzola, 2008
Engaging and comprehensive, this resource is ideal for both students in training and for practitioners and clinicians who are struggling to keep up with the rapidly changing field of Speech Language Pathology. **BOOK JACKET** *Comprehensive Healthcare Simulation: Geriatric Simulation* Cathy M. Smith, Nemat Alsaba, Lisa Guttman, Sokoloff, Debra Nestel, 2024-11-15
This practical guide brings together approaches designed for simulation-based education for the care of older adults. It fills a gap in the training for the care of older adults that working with Simulated Participants (SPs) can help to address. The book provides elements of best practice related to simulation methodology, are synthesized with relevant clinical evidence related to caring for older adults. This book will be an invaluable practical resource for educators, academics, and other health care providers with diverse levels of experience who work in health professions education and simulation training related to care of older adults. It offers support and guidance to all health professions globally and is particularly pertinent to interprofessional practice. Users will gain the essential ingredients to confidently implement a safe and effective geriatric simulation program with older adult SPs. **Dysphagia in Movement Disorders** John C. Life Care Planning and Case Management Handbook
Roger O. Weed, Debra E. Berens, 2018-09-03 Life care planning is an advanced collaborative case management specialty practice focused on assessing evaluating coordinating consulting planning for and monitoring necessary services for individuals with complex medical care needs over their lifetime This handbook provides a comprehensive resource for all people involved with catastrophic impairments and chronic medical care case management The Life Care Planning and Case

Management Handbook Fourth Edition begins by defining the roles played by each of the key team members working with the life care planner. It provides planners with insights critical to successful interactions with medical and health care related professionals as well as the team members they are most likely to encounter as they work to build an accurate and reliable life care plan. Next, the text offers up to date information on the medical conditions most frequently encountered by the life care planner. The contributors, who are recognized experts in their disciplines, also address issues in forensic settings, ethics, standards, research, and credentials. The fourth edition includes numerous chapters on general issues as well as updated standards of practice from the International Academy of Life Care Planners (IALCP), Life Care Planning Consensus Statements, and valuable step by step charts and checklists. Completely updated and expanded, this revised handbook now includes new chapters on multicultural considerations in life care planning, admissibility of life care plans in U.S. courts, and Canadian life care planning practice. Additionally, infused in other chapters is new information on medical coding and costing for life care planners, life care planning in non-litigated contexts, as well as research and education within life care planning.
