Sykes, 2016-08-09 The cost of a college degree has increased by 1 125% since 1978 four times the rate of inflation Total student debt has surpassed 1 3 trillion Nearly two thirds of all college students must borrow to study and the average student graduates with more than 30 000 in debt Many college graduates under twenty five years old are unemployed or underemployed And professors remember them rarely teach undergraduates at many major universities instead handing off their lecture halls to cheaper teaching assistants So is it worth it That s the question Charles J Sykes attempts to answer in Fail U exploring the staggering costs of a college education the sharp decline in tenured faculty and teaching loads the explosion of administrative jobs the grandiose building plans and the utter lack of preparedness for the real world that many now graduates face Fail U offers a different vision of higher education one that is affordable more productive and better suited to meet the needs of a diverse range of students and one that will actually be useful in their future careers and lives

UW Struggle Chuck Rybak, 2017-08-28 A Wisconsin story that serves as a national warning UW Struggle provides an on the ground view of the smoldering attack on public higher education in Wisconsin Chuck Rybak who works in the University of Wisconsin System provides important glimpses into the personal lives of those affected the dismantling of tenure protections the diminishment of shared governance and how faculty remain the scapegoat for all of the university s problems This is a chronicle of failed leadership and what actions if any can protect this vital American institution

Sport and the Neoliberal University Ryan King-White, 2018-01-25 College students are now regarded as consumers not students and nowhere is the growth and exploitation of the university more obvious than in the realm of college sports where the evidence is in the stadiums built with corporate money and the crowded sporting events sponsored by large conglomerates The contributors to Sport and the Neoliberal University examine how intercollegiate athletics became a contested terrain of public private interests They look at college sports from economic social legal and cultural perspectives to cut through popular mythologies regarding intercollegiate athletics and to advocate for increased clarity about what is going on at a variety of campuses with regard to athletics Focusing on current issues including the NCAA Title IX recruitment of high school athletes and the Penn State scandal among others Sport and the Neoliberal University shows the different ways institutions individuals and corporations are interacting with university athletics in ways that are profoundly shaped by neoliberal ideologies

Education for Democracy Chad Alan Goldberg, 2020-11-17 American public universities were founded in a civic tradition that differentiated them from their European predecessors steering away from the pursuit of knowledge for its own sake Like many such higher education institutions across the United States the University of Wisconsin's mission known as the Wisconsin Idea emphasizes a responsibility to serve the needs of the state and its people This commitment which necessarily requires a pledge to academic freedom has recently been openly threatened by state and federal actors seeking to dismantle a democratic and expansive conception of public service Using the Wisconsin Idea as a lens Education for Democracy argues that public higher education institutions remain a bastion of collaborative problem solving Examinations of partnerships between the state university and people of the state highlight many crucial and lasting contributions to issues of broad public concern such as conservation LGBTQ rights and poverty alleviation The contributors restore the value of state universities and humanities education as a public good contending that they deserve renewed and robust support

The Animals' Agenda Marc Bekoff, Jessica Pierce, 2017-04-18 A compelling argument that the time has come to use what we know about the fascinating and diverse inner lives of other animals on their behalf Every day we are learning new and surprising facts about just how intelligent and emotional animals are did you know rats like to play and laugh and also display empathy and the ears and noses of cows tell us how they're feeling At times we humans translate that knowledge into compassion for other animals think of the public outcry against the fates of Cecil the lion or the captive gorilla Harambe But on the whole our growing understanding of what animals feel is not resulting in more

respectful treatment of them. Renowned animal behavior expert Marc Bekoff and leading bioethicist Jessica Pierce explore the real world experiences of five categories of animals beginning with those who suffer the greatest deprivations of freedoms and choice: chickens, pigs and cows in industrial food systems as well as animals used in testing and research including mice, rats, cats, dogs and chimpanzees. Next, Bekoff and Pierce consider animals for whom losses of freedoms are more ambiguous and controversial, namely individuals held in zoos and aquaria and those kept as companions. Finally, they reveal the unexpected ways in which the freedoms of animals in the wild are constrained by human activities and argue for a more compassionate approach to conservation. In each case, scientific studies combine with stories of individual animals to bring readers face to face with the wonder of our fellow beings as well as the suffering they endure and the major paradigm shift that is needed to truly ensure their well-being. *The Animals Agenda* will educate and inspire people to rethink how we affect other animals and how we can evolve toward more peaceful and less violent ways of interacting with our animal kin in an increasingly human-dominated world.

Cosmo-Modernism and Theater in India Aparna Bhargava Dharwadker, 2025-08-05

Urban theater took shape in postindependence India as a large and complex field produced in more than sixteen major languages, including Bengali, Marathi, Hindi, Gujarati, and Kannada. The cosmopolitan engagement of leading playwrights with modernist and postcolonial literary movements around the world created distinctly new aesthetic and political approaches to Indian myth, history, and sociocultural experience, which had become the most prominent subjects in modern Indian drama. Yet even as critics and scholars of global modernism have increasingly turned their attention beyond North America and Europe, they continue to focus on dominant world languages at the expense of multilingual cultures such as India's. Despite their originality and significance, modernist works written in Indian languages other than English remain neglected. In *Cosmo-Modernism and Theater in India*, Aparna Bhargava Dharwadker develops a new framework for understanding non-Anglophone Indian modernisms by recovering crucial theoretical concepts and using them to analyze the writing, staging, and reception of major

plays in multiple languages She argues that the output of prominent mid to late twentieth century playwrights such as Dharamvir Bharati Mohan Rakesh Badal Sircar Vijay Tendulkar Girish Karnad and Habib Tanvir registers a decisive rupture from nineteenth century forms of colonial modernity In representing the ancient Indian past the postcolonial urban present and the rich repertoire of precolonial performance traditions these authors works became highly inventive expressions of modernist classicism realism and traditionalism Dharwadker shows how a decommercialized performance economy and the incessant activity of translation further enhanced modernist production and she connects Indian modernisms to regional national and transnational networks Offering bold new insights into the theory and practice of modernist drama this book delivers a radical remapping of global modernisms
