WHO Technical Manual on Tobacco Tax Administration World Health Organization, 2010 Tobacco use is the single largest cause of preventable death globally killing more than five million people each year Tobacco use also creates considerable economic costs from greater spending on health care to treat the diseases it brings on in users and those exposed to tobacco smoke to the lost productivity resulting from the premature deaths it causes Of all the many interventions for reducing tobacco use a significant increase in tobacco product taxes and prices has been demonstrated to be the single most effective and cost effective intervention particularly among the poor and the young At the same time because of the inelasticity of demand for tobacco products in most countries and the low share of tax in price in many significant increases in tobacco taxes generate significant increases in the revenues generated by these taxes This technical manual aims to help governments achieve both objectives by identifying a set of best practices for tobacco taxation It documents governments existing approaches to tobacco taxation discusses barriers to using tobacco taxes to achieve health and revenue objectives and provides case studies of effective tobacco tax administration This manual is intended to be useful to tax administrators at the Ministry of Finance level by making them aware of the practices used and challenges faced by other countries It will also be useful to officials in a country s Ministry of Health or similar organizations by providing them with a more thorough understanding of key issues in tax structure and administration

Tobacco Use Among United States Racial/ethnic Minority Groups United States. Department of Health and Human Services, 1998 This Surgeon General s report on tobacco use summarizes current information on risk factors and patterns related to tobacco use among members of four major racial and ethnic minority groups in the United States African Americans American Indians and Alaska Natives Asian Americans and Pacific Islanders and Hispanics In addition this report presents information on national and regional efforts to curtail consumption of tobacco products among members of these four groups Previous Surgeon General s reports on smoking and health have briefly summarized findings related to one or more of the racial ethnic groups covered in this report but this is the first Surgeon General s report to concentrate specifically on the four major racial ethnic groups in the United States Several factors prompted the development of this report First the information in this report has never before been compiled in one source Consequently policymakers community leaders researchers and public health workers have had difficulty determining the extent of the problem identifying gaps in information regarding tobacco use among members of the four groups or being aware of existing tobacco control programs that have demonstrated effectiveness Thus incorporating such information into the design and implementation of culturally appropriate services has been difficult Second the four racial ethnic groups currently constitute about one fourth of the population of this country and the Bureau of the Census projects that by 2050 the

non Hispanic white population in the United States will total only 53 percent Day 1996 Preventing health problems related to tobacco use among the individuals in racial and ethnic groups will be integral to achieving U S public health objectives such as those proposed in Healthy People 2000 National Health Promotion and Disease Prevention Objectives U S Department of Health and Human Services USDHHS 1991 1995 National Center for Health Statistics NCHS 1994 This report contributes essential knowledge that must be incorporated into efforts to accomplish the Healthy People 2000 objectives
