Too Much Luck The Mining Boom And Australias Future:

Too Much Luck Paul Cleary, 2011-08-10 We think we are the lucky country but what we really have is dumb luck too much luck more than we know what to do with Paul Cleary In *Too Much Luck* Paul Cleary shows how the resource boom which seems a blessing could well become a curse We have never seen a boom quite like this one Under taxed and under regulated multinational companies are making colossal profits by selling off non renewable resources New projects are being rushed through weekly but who is looking out for the public interest As the boom accelerates it will drive the dollar higher and higher and force up the cost of doing business for everyone else Industries that involve many jobs such as tourism and education will fade away What happens if commodity prices suddenly collapse as they have in the past Or worse when the resources run out Many countries before us have been caught by the resource trap a heady period of boom and growth followed by a painful bust Paul Cleary maps out the pitfalls counts the human and environmental costs shows what has worked overseas and suggests a better way forward one which would turn this one off windfall into a lasting legacy

Climate Change and Capitalism in Australia Hans A. Baer, 2021-09-30 Recognizing that climate politics has been an increasingly contentious and heated topic in Australia over the past two decades this book examines Australian capitalism as a driver of climate change and the nexus between the corporations and Coalition and Australian Labor parties As a highly developed country Australia is punching above its weight in terms of contributing to greenhouse gas emissions despite rising temperatures droughts water shortages and raging bushfires storm surges and flooding and the bleaching of the Great Barrier Reef Drawing upon both archival and ethnographic research Hans Baer examines Australian climate politics at the margins namely the Greens the labour union the environmental NGOs and the grass roots climate movement Adopting a climate justice perspective which calls for system change not climate change as opposed to the conventional approach of seeking to mitigate emissions through market mechanisms and techno fixes particularly renewable energy sources this book posits system challenging transitional steps to shift Australia toward an eco socialist vision in keeping with a burgeoning global socio ecological revolution Accessibly written and including an interview with renowned comedian and climate activist Rod Quantock OAM this book is essential reading for academics students and general readers with an interest in climate change and climate activism

Neoliberal Australia and US Imperialism in East Asia E. Paul, 2012-10-23 A critical analysis of Australia s neoliberal state and role in the American imperial project in Asia In exposing the causal mechanisms for violence and prospects for more wars it argues for emancipatory alternatives to the existing dominant and anti democratic neoliberal governmentality

Rural Change in Australia John Connell, 2016-04-08 New twenty first century economic social and environmental changes have challenged and reshaped rural Australia They range from ageing populations youth out migration immigration policies that seek to place skilled migrants in rural Australia tree changers agricultural restructuring and new relationships with indigenous populations Challenges also exist around the patchwork

economy and the wealth that the mining boom offers some areas while threatening regional economic decline in others Rural Australia is increasingly not simply a place of production of agriculture and minerals but an idea that individuals seek and are encouraged to consume The socio economic implications of drought water rights and changing farming practices have prefaced new social cultural and economic reforms This book provides a contemporary perspective on rapidly evolving population economic and environmental changes in rural and regional Australia itself a significant concept Bringing together a range of empirical studies the book builds on established rural studies themes such as population change economic restructuring and globalisation in agriculture but links such changes to environmental change culture class gender and ethnic diversity Presenting original and in depth interventions on these issues and their intersections this book assembles the best of contemporary research on rural Australia

Environmental Crime and Social Conflict Avi Brisman,Nigel South,Rob White,2016-03-09 This impressive collection of original essays explores the relationship between social conflict and the environment a topic that has received little attention within criminology The chapters provide a systematic and comprehensive introduction and overview of conflict situations stemming from human exploitation of environments as well as the impact of social conflicts on the wellbeing and health of specific species and ecosystems Largely informed by green criminology perspectives the chapters in the book are intended to stimulate new understandings of the relationships between humans and nature through critical evaluation of environmental destruction and degradation associated with social conflicts occurring around the world With a goal of creating a typology of environment social conflict relationships useful for green criminological research this study is essential reading for scholars and academics in criminology as well as those interested in crime law and justice

Policy Analysis in Australia Brian Head, Kate Crowley, 2018-03-01 Policy Analysis in Australia offers a distinctly Australian interpretation of policy scholarship with eighteen chapters strongly reflecting the outstanding contributions of Australian scholars to the field of public policy It provides a coherent overview of the strengths and opportunities for policy analysis in Australia It recognises that government agencies are no longer regarded as the sole source of sound policy analysis and takes a broad view of policy analysis capacity both within institutions at all levels of government and beyond government in the media political parties business and non government associations It provides a valuable contribution to Australian scholarship about policy analysis in academic professional teaching and learning contexts and is a key addition to research and teaching in comparative policy analysis and policy studies more generally

Adani versus the Black-throated Finch Tor Hundloe, 2018-03-13 On 3 April 2016 the Queensland government announced that it had granted coal leases to Adani They are in Banjo Paterson country where

Waltzing Matilda was written The grant put the cart before the horse Offset habitat for the endangered Black throated Finch had not been located let alone secured Compensation for graziers losses of water had not been agreed The ecological health of the Great Barrier Reef was threatened as a great amount of coal would be shipped and burned There were no guarantees as to the royalties and tax the nation would earn And conflicting stories were told by Adani the mine was projected to last 150 years and employ 10 000 years later Adani admitted its lifespan would be 60 years and employ under 1 500 The very serious threat of environmental damage the likelihood that the finches won t be saved and the economic uncertainty lead inexorably to one conclusion However you be the judge

The Absent Presence of the State in Large-Scale Resource Extraction Projects Nicholas A. Bainton, Emilia E. Skrzypek, 2021-08-03 Standing on the broken ground of resource extraction settings the state is sometimes like a chimera its appearance and intentions are misleading and for some actors it is unknowable and incomprehensible It may be easily mistaken for someone or something else like a mining company for example With rich ethnographic material this volume tackles critical questions about the nature of contemporary states studied from the perspective of resource extraction projects in Papua New Guinea Australia and beyond It brings together a sustained focus on the unstable and often dialectical relationship between the presence and the absence of the state in the context of resource extraction Across the chapters contributors discuss cases of proposed mining ventures existing large scale mining operations and the extraction of natural gas Together they illustrate how the concept of absent presence can be brought to life and how it can enhance our understanding of the state as well as relations and processes forming in extractive contexts thus providing a novel contribution to the anthropology of the state and the anthropology of extraction The Absent Presence fills a major gap in our knowledge about the relationship between states and companies at a time when resource extraction seems to be more contested than ever Bainton and Skrzypek have curated an incredibly impressive volume that should be read by all those interested in exploring corporate and state power and the ever present impacts of extraction A highly recommended read Professor Deanna Kemp Director of the Centre for Social Responsibility in Mining The University of Queensland Countless books have been written on the sovereign state and how it imposes a particular kind of order on economic and social interactions What is original and compelling about this collection is the portrait of how two very different states converge when it comes to extractive ventures From the presumption of exclusive sovereignty over mineral resources to the bargains that are struck with major often global corporations and the relative indifference to environmental impacts there is a remarkable consistency in the patterns that are referred to as state effects These effects are brought from the background to the foreground in this book through the blending of creative and critical thinking with detailed empirical research Tim Dunne Pro Vice Chancellor and Professor of International Relations The University of Queensland This brilliant and intriguing title provides a timely contribution to understanding the actual functions and strategies of state and state like institutions in resource arenas The dialectics of presence absence and its refractions at different levels and scales of

government allow the authors to go beyond stereotypes about the strong weak failed or corrupt state highlighting more commonalities than expected between Papua New Guinea and Australia and even New Caledonia Dr Pierre Yves Le Meur Anthropologist Senior Researcher French National Research Institute for Sustainable Development Joint Research Unit SENS Knowledge Environment Society **Australia in the US Empire** Erik Paul, 2018-04-27 This book argues that Australia is vital to the US imperial project for global hegemony in the struggle among great powers and why Australia's deep dependency on the US is incompatible with democracy and the security of the country The Australian continent is increasingly a contestable geopolitical asset for the US grand strategy and for China's economic and political expansionism The election of Donald Trump to the US presidency is symptomatic of the US hegemonic crisis The US is Australia's dangerous ally and the US crisis is a call for Australia to regain sovereignty and sever its military alliance with the US Political realism provides a critical paradigm to analyse the interactions between capitalism imperialism and militarism as they undermine Australian democracy and shift governmentality towards new forms of authoritarianism
