New to Big David Kidder, Christina Wallace, 2019-04-02 Serial entrepreneurs David Kidder and Christina Wallace reveal their revolutionary playbook for igniting growth inside established companies Most established companies face a key survival challenge says David Kidder CEO of Bionic lifelong entrepreneur and angel investor in more than thirty startups operational efficiency and outdated bureaucracy are at war with new growth Legacy companies are skilled at growing big businesses into even bigger ones But they are less adept at discovering new opportunities and turning them into big businesses the way entrepreneurs and early stage investors must In *New to Big* Kidder and Wallace reveal their proprietary blueprint for installing a permanent growth capability inside any company the Growth Operating System The Growth OS borrows the best tools systems and mind sets from entrepreneurship and venture capital and adapts them for established organizations leveraging these two distinct skills as a form of management for building in a future that is uncertain By focusing on what consumers do rather than what they say

celebrating productive failure embracing a portfolio approach and learning from the outside in Kidder and Wallace argue any company can go on offense and win the future This isn't about a one off innovation moonshot It's about building a permanent ladder to the moon

A Skills-Based Approach to Developing a Career Ryan M. Frischmann, 2013-07-22 Skills Based Approach is a methodology centered on the development of a skill set over a career it is a progression in four stages planning building presenting and validating Each stage has proposed ways to achieve its objectives The beauty of a skills based approach is its simplicity and flexibility It effectively handles the complex factors in career planning and development such as changing career demands due to technology and demographics rising education costs and increasingly competitive employment market A skill set represents your functional capabilities essentially a list of skills with your level of expertise Skill sets are searchable standardized interactive and portable Professional web services have adopted the use of skill sets and some have built sophisticated search engines based on them This book guides you through planning a skill set to achieve career aspirations learning and building an expertise with skills and how to respond to setbacks or opportunities presenting skills on various platforms and validating skills so you establish credibility with your intended audience The objective of this book is to provide a framework that can be used throughout your career to increase your chances of success Career planning is the key to finding happiness

Powers of Two Joshua Wolf Shenk, 2018-06-01 The power of collaboration from Lennon and McCartney to Wozniak and Jobs An inspiring book that also happens to be a great read Daniel H Pink author of Drive Throughout history partners have buoyed each other to better work though often one member is little known to the general public See Warren Buffett and Charlie Munger or Vincent and Theo van Gogh Powers of Two draws on neuroscience social psychology and cultural history to present the social foundations of creativity with the pair as its primary embodiment Revealing the six essential stages through which creative intimacy unfolds this book shows how pairs begin to talk think and even look like each other how the most successful ones thrive on conflict and why some cease to work together while others carry on At once intuitive and deeply surprising Powers of Two will reshape the way you view individuals relationships and society itself A rare glimpse into the private realms of duos A natural storyteller The New York Times A book about magic about the Beatles about the chemistry between people about neuroscience and about the buddy system it examines love and hate harmony and dissonance and everything in between Wise funny surprising and completely engrossing Susan Orlean We sometimes think of creativity as coming from brilliant loners In fact it more often happens when bright people pair up and complement each other Shenk's fascinating book shows how to spark the power of this phenomenon Walter Isaacson Surprising compelling Shenk banishes the idea of solitary genius by demonstrating that our richest art and science come from collaboration we need one another not only for love but also for thinking and imagining and growing and being Andrew Solomon
