

TOK Exhibition: Subtext and Connotation

The TOK prompt I have selected is: **"What challenges are raised by the dissemination and/or communication of knowledge?"**. This exhibition explores this prompt by reflecting on knowledge and language, and more specifically on whether subtext and connotation always create confusion rather than help us to communicate knowledge. The language we use in our everyday lives can often be interpreted many different ways by different people, depending on their cultural background, beliefs, ideologies, affiliations, personal experiences etc. In particular it seems that subtext and connotation can be particularly challenging as they are often only recognised by people that share some particular knowledge or experiences, and it seems that they can easily be interpreted very differently by different people which can cause confusion and hinder communication of knowledge.

Object 1. Starbucks holiday cup

This cup was used by Starbucks in 2017 and was controversial because some people viewed the symbol of the two hands holding hands on the cup as a sign that Starbucks was promoting a homosexual agenda, because they saw the cups as having an LGBT subtext. However, many other people just saw the cup as spreading joy and love during the holiday season and did not think that there was any particular subtext at all.

This cup is particularly interesting for this exhibition because a Starbucks spokesman said that they had intentionally designed the cup so that customers could interpret it in their own way, which suggests that they were deliberately trying to communicate in an open or vague way rather than seeing the disagreement this might cause as being negative/ a challenge. In this way, the cup highlights how confusion arising from the use of subtext can be useful or can actually even be used by people intentionally to provoke discussion. The cup generated a lot of media attention for the company while still allowing them to say that how the cup was to be interpreted was up to their individual customers to decide.

Historical Linguistics and Philology Jacek Fisiak, 2011-06-01 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language. The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science. TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages. It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language. TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints. High quality standards are ensured through anonymous reviewing. York Papers in Linguistics, 1986

Reflexive constructions in the world's languages Katarzyna Janic, Nicoletta Puddu, Martin Haspelmath, 2023-07-11 This landmark publication brings together 28 papers on reflexive constructions in languages from all continents representing very diverse language types. While reflexive constructions have been discussed in the past from a variety of angles, this is the first edited volume of its kind. All the chapters are based on original data and they are broadly comparable through a common terminological framework. The volume opens with two introductory chapters by the editors that set the stage and lay out the main comparative concepts and it concludes with a chapter presenting generalizations on the basis of the studies of individual languages.

Knowledge According to My Gardener: 50 Stories and Crosswords to Start TOK Conversations Ayman Al Zanoun, 2014-12-10 Theory of Knowledge (TOK) is about how to think, not what to think. In *Knowledge According to My Gardener*, author Ayman Al Zanoun offers fifty stories and crossword puzzles to bring TOK conversations to life and to add a sense of entertainment to learning. Designed to help students and teachers to start meaningful conversations about knowledge and the ends of good education, *Knowledge According to My Gardener* first tells the story of a struggling teacher who couldn't communicate with students and how discovering the power of storytelling changed his life. It then introduces the gardener, the common thread in all the stories, who embarks on a unique journey to explore knowledge. Each story presents philosophical insights drawn from Plato, Rorty, Wittgenstein and many others and blends them with the world of everyday life, the world of selfies, football and birthdays.

Ecolinguistics Reader Alwin Fill, Peter Mühlhäusler, 2006-05-01 Thirty years ago a new linguistic paradigm was created when Einar Haugen combined language with ecology. For Haugen, the ecology of language meant the study of the interrelations between languages in the

human mind and in the multilingual community Since then a special branch of linguistics named Ecolinguistics has developed in which the connection between language and ecology has been established in a variety of ways and using a multitude of methods and approaches In addition to the original ecolinguistic topics of language interrelation language endangerment and language pressure Ecolinguistics Reader also gives due consideration to the themes of biological and linguistic diversity as well as the ecocritical aspect
