 Japan includes a comprehensive list of hotel reviews recommended restaurants and first class tips for shopping and
 entertainment whatever your budget Don t miss a thing with the DK Eyewitness Guide to Japan **Reconstruction of
 Urban Forests** Joe R. McBride, Judith Stilgenbauer, Igor Lacan, Sheauchi Cheng, Scot Medbury, Deborah L.
 McBride, 2021-01-16 This book will address the destruction of urban forest in nine cities by bombing during World War II and
 the Bosnian War and their reconstruction in the post war years After reviewing the general objectives and results of aerial
 bombing the book explores the effects of bombing and the reconstruction of urban forest in London Coventry Hamburg
 Dresden St Petersburg Stalingrad Tokyo Hiroshima and Sarajevo Sarajevo stands out among these cities because the
 destruction of its urban forest was the result of citizens cutting down trees for firewood during the siege of the city Most of
 the cities studied developed plans for reconstruction either during or after the war These plans often addressed the planning
 and re establishment of the urban forest that had been destroyed Urban planners often planned for infrastructure
 improvements such as new boulevards and parks where trees would be planted After the war many of these plans were
 abandoned or significantly modified Cost resistance by property owners control of reconstruction by authorities outside of
 the cities and the lack of planting stock were factors contributing to the failure of many of the plans Exceptions occurred in
 Hiroshima and Coventry where the destroyed cities became symbols of national reconstruction and every effort was made to
 redesign the destroyed portions of these cities as memorials to those who lost their lives and to demonstrate the rebirth of
 the cities In several of the cities studied individual citizens undertook on their own the replanting of street and park trees
 Their ingenuity hard work and dedication to trees in their cities was remarkable A common factor limiting efforts to replant
 street and park trees was the lack of nursery stock During and immediately after the wars nearly all nurseries that had
 supplied trees for city planting had been converted to vegetable gardens to produce food for the urban populations The slow
 return to the production of trees for urban planting was a common factor in the time required in many cities to restore their
 street and park trees There are lessons to be learned by urban planner urban forester and landscape architects from this

book that will be useful in the future destruction of urban forest either by natural or man made causes **DK Eyewitness Travel Guide Japan** DK Eyewitness,2017-02-21 Explore Japan s busy city streets historic temples and beautiful culture Experience Tokyo Kyoto and the rest of Japan s exciting cities Discover DK Eyewitness Travel Guide Japan Detailed itineraries and don t miss destination highlights at a glance Illustrated cutaway 3 D drawings of important sights Floor plans and guided visitor information for major museums Guided walking tours local drink and dining specialties to try things to do and places to eat drink and shop by area Area maps marked with sights Detailed city maps include street finder indexes for easy navigation Insights into history and culture to help you understand the stories behind the sights Hotel and restaurant listings highlight DK Choice special recommendations With hundreds of full color photographs hand drawn illustrations and custom maps that illuminate every page DK Eyewitness Travel Guide Japan truly shows you this country as no one else can
