maps progression examples and exercises in these books were designed to improve and expand the student's view of the harmonic surroundings around each and every tonal center. The volumes in this collection are organized in a progressive manner, each volume expanding the previous volume's map by introducing new harmonic concepts and/or functions based on the premise that all functions introduced in earlier volumes have been understood and assimilated. Each new concept or function adds some level of detail to the map and/or extends the known area around the tonic. Many of the concepts presented in these books are simply mentioned for mapping purposes only and should be carefully studied by using other sources such as a harmony course, tonal harmony books, teachers, etc. Voice leading and inversions are not covered in these volumes since their main objective is to map essential harmonic functions in every key.

Vol 1 The basic major/minor diatonic neighborhoods: Tonic, Sub Dominant, Dominant. Basic harmonic progressions: Perfect Authentic Cadence (PAC). The use of V7 vs V as a triad.
