The Webcam as an Emerging Cinematic Medium Paula Albuquerque, 2025-10-01 All the world's a stage literally so given the ubiquitous presence of webcams recording daily life in cities This footage allegedly documentary recreates cities as cinematic environments as people interact with the multitudes of cameras and screens around them Paula Albuquerque's original research and experimental films presented in this groundbreaking book expose fictionalising elements in archival webcams and explore video surveillance as an urban condition that influences both perceptions of the past and visions of the future

Surpassing Modernity Andrew McNamara, 2018-11-29 For the past thirty to forty years cultural analysis has focused on developing terms to explain the surpassing of modernity Discussion is stranded in an impasse between those who view the term modernity with automatic disdain as deterministic Eurocentric or imperialistic and a booming interest that is renewing the study of modernism Another dilemma is that the urge to move away from or beyond modernity arises because it is viewed as difficult even unsavoury Yet there has always been a view of modernity as somehow difficult to live with and that has been said by figures we regard today as typical modernists McNamara argues in this book that it is time to forget the quest to surpass modernity Instead we should re-examine a legacy that continues to inform our artistic conceptions our political debates our critical justifications even if that legacy is baffling and contradictory We may find it difficult to live with but without recourse to this legacy our critical cultural ambitions would remain seriously diminished How do we explain the culture we live in today And how do we as citizens make sense of it This book suggests these questions have become increasingly difficult to answer
