

BR Vario II Cylindrical Brush Floor Machine

Compact, Powerful and Eco-friendly

Cutting-Edge Technology

Imagine an environmentally-preferred, compact, lightweight floor machine with 650 rpm of cleaning power. Even better, imagine a machine that utilizes cutting-edge cylindrical brush technology to tackle floor surfaces from tile and cement to paver bricks, raised rubber disc, quarry tile, and other challenging applications. Add a solution tank, collapsible handle, and contact pressure six times greater than that of a single disc machine and you have the BR Vario II, the latest in industry floor machine technology.

A unique feature of the BR Vario II is that it can strip and scrub without the normal slinging of water seen in traditional rotary floor machines. The BR Vario II provides unmatched speed and efficiency for large areas, while allowing close edge cleaning along walls and other obstacles. The BR Vario II's handle turns 90 degrees allowing the operator two-dimensional cleaning performance in all directions: left, right, forwards, and backwards.

Sustainability with Cylindrical Brush

Tornado's BR Vario II cylindrical brush machine is designed for environmental sustainability. The use of cylindrical brushes conserves natural resources including water, solution and source materials. This unit is perfect for use in any facility with porous, or uneven hard floor cleaning challenges such as hospitals, schools, resorts, restaurants, retail shops, and much more. Cylindrical brush technology delivers low moisture deep scrubbing through concentrated brush speeds of 650 RPM — over six times higher than the speed of comparable rotary brush automatic scrubbers, digging deeper into uneven flooring surfaces to remove dirt that a disc unit can't reach. Cylindrical brushes also provide 4-6 times more contact pressure than rotary brush scrubbing, handling any flat or structured floor surface with ease.
