Vatican II Que Penser De T:

Maurice Blondel Robert C. Koerpel, 2018-11-30 During the past few decades there has been renewed interest in the twentieth century French Catholic philosopher Maurice Blondel 1861 1949 and his influence on modern and contemporary theology but little scholarship has been published in the English speaking world In *Maurice Blondel Transforming Catholic Tradition* Robert Koerpel examines Blondel's work the historical and theological development of the idea of tradition in modern Catholicism tradition's relation to reason and revelation and Blondel's influence on Catholicism's understanding of tradition The book presents aspects of Blondel's thought that deserve to be more widely known and contributes to important debates in current theology on modern French Catholic thought and the emerging conversations surrounding them Koerpel looks to the cultural context from which Blondel's thought emerges by situating it within the broader conceptual historical and theological developments of modernity He examines the problem of reason and revelation in modern Catholicism the role and nature of tradition and the relationships between theology and history truth and change nature and grace and scripture and the development of doctrine This book provides readers with an appreciation of Blondel's conceptually creative answer to how tradition represents the Word of God in human history and why it is one of his most important contributions to modern and contemporary theology They will discover how his contribution restores the animated vitality between the institutional and liturgical dimensions of tradition essential to the living dynamic nature of Catholicism *Vatican II* Jacques Vermeulen, 2012 Qu'est-ce qu'un concile Pourquoi un nouveau concile faut-il nécessairement Quel fut le déroulement du concile Que disent les documents du concile Comment le concile a-t-il été reçu? En somme nous aujourd'hui Vatican II n'est-il pas dépassé? En sept questions qui constituent autant de chapitres l'auteur réussit le tour de force de donner un panorama extrêmement clair et fortement synthétique de ce que fut véritablement Vatican II avec ses antécédents ses conflits internes son aboutissement sa réception et son actualité cinquante ans après sa clôture *The Vatican Council. preeminent Catholic moral theologians of his generation His highly acclaimed works among them *The Sources of Christian Ethics* offer a thoroughly Thomistic and contemporary vision of the Christian moral life They reflect the philosophical and spiritual prowess of a moral theologian who is estranged neither from philosophical ethics nor from dogmatic theology neither from Scripture nor from spirituality The first collection of its kind available in any language this volume features the twenty most significant essays written by Pinckaers since his highly praised *Sources* The essays offer profound reflections that are only possible by a contemporary moral theologian who knows the thought of Aquinas from lifelong study Rather than taking a simply historical approach to Aquinas Pinckaers seeks the basis of the intelligibility of the moral life providing rich spiritual and theological insights along the way He plumbs the depths of fundamental moral theology in these essays where he treats Thomistic method and the renewal of moral theology beatitude and Christian anthropology moral agency and passions and virtues as well as law and grace Such a detailed treatment of key issues in fundamental moral theology and Christian philosophical anthropology will certainly demand attention from every theologian and advanced student interested in Aquinas and in a virtue approach to Christian ethics Pinckaers's work has been an important source for the revival of interest in virtue oriented moral theology in recent years and will continue to be a major source for debates over the place of Scripture and the Holy Spirit in moral theology John Berkman is Associate Professor of Moral Theology and Area Director of Moral Theology Ethics at The Catholic University of America Craig Steven Titus is Research Fellow and Lecturer in the Department of Ethics and Moral Theology at the University of Fribourg and Visiting Professor at the Institute for the Psychological Sciences The essays are translated by Sr Mary Thomas Noble O P Craig Steven Titus Michael Sherwin O P and Hugh Connolly PRAISE FOR THE BOOK These essays speak of the sound and substantial contribution the thought of Servais Pinckaers has made to the renewal of moral theology called for by Vatican II In the microcosm of this Reader he shows how the New Law of the Gospel is the necessary rediscovery at once traditional and of the future that gives fresh heart and insight to Christian morality As Father Pinckaers looks at Thomistic method at beatitude and Christian anthropology moral agency passions and virtue law and grace he integrates morality and spirituality in a way that will guide the teacher of moral theology and suggest new paths for the speculative theologian Francis Cardinal George O M I Archbishop of Chicago The work of Servais Pinckaers is essential for the renewal of moral theology Pinckaers quite simply avoids the unhappy alternatives represented by recent debates in Catholic moral theology by a profound recovery of Aquinas understanding of beatitude and the virtues Pinckaers work moreover is as important for Protestant theological ethics as it is for Catholic moral theology This collection of essays wonderfully represents the heart of his work in a manner that provides us with a constructive alternative for the future We are in debt to John Berkman and Craig Steven Titus for making Pinckaers work available Stanley Hauerwas Duke University Virtue ethics the interloper in the morass of modern moral philosophy and acceptable even now only to a minority among Catholic moralists is here given a strong voice At last in English we have a
