Remember, an HD programming is required to experience the full benefit of HD.

The quality of the image you see on your BRAVIA™ can vary as high as the quality of the signal it is displaying. This chart shows the different signal types and how to connect them.

Full Flat

	Connection	Source
High Definition Content	Set picture quality and aspect ratio	HD content from HD source (HD content from HD source)
Original Content	Set picture quality and aspect ratio as original	HD content from HD source (HD content from HD source)
Standard Content	Set picture quality and aspect ratio as original	HD content from HD source (HD content from HD source)

Connect your video or audio source to your BRAVIA™ TV. Remember that the set is not HD compatible with an HD-quality source. The source must be HD compatible to experience the full benefit of HD.
