PERSPECTIVE AND NARRATOR

To Kill a Mockingbird is narrated in first-person point of view from the perspective of Scout Finch. At the opening of the novel Scout is six years old and living in Great Depression-era Alabama. Scout gives the unique perspective of a child as she talks about the racial and social relations in her town of

Maycomb. Her innocence adds texture and poignancy to the story. Although she doesn't fully understand what's going on around her, she gives readers enough information to interpret themselves.

TENSE

To Kill a Mockingbird is told primarily in the past tense.

ABOUT THE TITLE

To Kill a Mockingbird is a reference to one of the novel's primary symbols: the mockingbird, a symbol of innocence.

🕒 In Context

Published in 1960, Harper Lee's *To Kill a Mockingbird* was an immediate success, winning the Pulitzer Prize for Fiction in 1961. The novel was turned into a popular motion picture in 1962. At the Academy Awards actor Gregory Peck won an Oscar for his portrayal of Atticus Finch.

This tale of racism and social injustice is especially poignant because of its six-year-old narrator, Scout Finch, who shares the events through her innocent but observant eyes.

What has solidified the novel as one of the most influential in American literature is its treatment of race relations, as seen in Tom Robinson's rape case. The novel's other subplot focuses on prejudice against the town's reclusive resident Boo Radley. These two subplots converge to convey powerful themes of tolerance and justice.

The novel and movie were released during the height of the American Civil Rights Movement. The first sit-in protest against segregation occurred in Greensboro, North Carolina, in February 1960. Three years after that lunch counter sit-in, Martin Luther King Jr. penned his famous "Letter from Birmingham Jail," a defense of nonviolent civil disobedience. A few months later he led the March on Washington and
