The Rainbow Age of Television Shayna Maci Warner, 2024-08-27 The ultimate deep dive into the revolution of queer TV With the last decade's television boom across a multitude of platforms producing hundreds of network and streaming series American audiences are being treated to a cascade of shows that some have trumpeted as a second Golden Age But something completely new is stirring too the Rainbow Age For the first time in the history of American television we have shows in which LGBTQIA characters have evolved from being an anomaly to being an almost given and celebrated presence on the small screen But what more can queer TV do Is each new queer character really breaking ground And has the curse of the fictional dead lesbian finally been defeated The Rainbow Age of Television tackles these questions and more as author Shayna Maci Warner tracks the history and evolution of LGBTQIA icons across the televised ages and into the future of streaming from the very first televised queer kiss we think to the shows that are making household names and heroes of queer characters today

Warner uses original interviews with queer TV icons such as Lilly Wachowski and Stephanie Beatriz along with detailed history to investigate the constraints under which queer people have been allowed to exist on American television. Surveying seventy plus years of broadcasts, *The Rainbow Age of Television* explores why queer people are so invested in and conflicted by the kinds of storytelling that TV has to offer. Above all, it is a celebration of the LGBTQIA shows, their characters, and their creators that define this new age in television.

Contraband Guides Paul H. D. Kaplan, 2020-04-23 In his best-selling travel memoir *The Innocents Abroad*, Mark Twain punningly refers to the black man who introduces him to Venetian Renaissance painting as a *contraband guide*, a term coined to describe fugitive slaves who assisted Union armies during the Civil War. By means of this and similar case studies, Paul H. D. Kaplan documents the ways in which American cultural encounters with Europe and its venerable artistic traditions influenced nineteenth-century concepts of race in the United States. Americans of the Civil War era were struck by the presence of people of color in European art and society, and American artists and authors, both black and white, adapted and transformed European visual material to respond to the particular struggles over the identity of African Americans. Taking up the work of both well and lesser-known artists and writers, such as the travel writings of Mark Twain and William Dean Howells, the paintings of German American Emanuel Leutze, the epistolary exchange between John Ruskin and Charles Eliot Norton, newspaper essays written by Frederick Douglass and William J. Wilson, and the sculpture of freed slave Eugene Warburg, Kaplan lays bare how racial attitudes expressed in mid-nineteenth-century American art were deeply inflected by European traditions. By highlighting the contributions people of black African descent made to the fine arts in the United States during this period, along with the ways in which they were represented, *Contraband Guides* provides a fresh perspective on the theme of race in Civil War era American art. It will appeal to art historians, to specialists in African American studies, and to general readers interested in American art and African American history.
