The Current Index, 1913 **Fourth Estate**, 1907 *The News Event* Francis Cody, 2023-04-05 In the hypermediated world of Tamil Nadu Francis Cody studies how news events are made Not merely the act of representing events with words or images a news event is the reciprocal relationship between the events being reported in the news and the event of the news coverage itself In *The News Event* Francis Cody focuses on how imaginaries of popular sovereignty have been remade through the production and experience of such events Political sovereignty is thoroughly mediated by the production of news and subjects invested in the idea of democracy are remarkably reflexive about the role of publicly circulating images and texts in the very constitution of their subjectivity The law comes to stand as both a limit and positive condition in this process of event making where acts of legal and extralegal repression of publication can also become the stuff of news about news makers When the subjects of news inhabit multiple participant roles in the unfolding of public events when the very technologies of recording and circulating events themselves become news the act of representing a political event becomes difficult to disentangle from that of participating in it This Cody argues is the crisis of contemporary news making the news

been very unfortunate that the APSRTC has limited its human resource developmental practices for some cadres at apex level only without taking organizational climate of various zones into account while training their managerial personnel But the need of the hour is to put more emphasis on all the HRD practices at managerial level in the background of their level of climate The researcher looks at the problems of implementing HRD practices in the context of changing technological advancement and government policies

challenges of other kinds that outsiders may be ill equipped to handle Bullis s descriptions and analyses of the Indian economy social structure history and business practices will provide the kind of understandings that Westerners need to enter the Indian market and compete successfully
