Today Show Weather Report:

The Today Show Cathleen M. Londino, 2016-11-15 In the early 1950s when television networks did not broadcast regular programming before 11 a.m. radio and newspapers were the most popular and reliable ways for Americans to get their morning news. Then Sylvester Pat Weaver, vice president of programming at NBC, pitched a bold new concept to the network: a two-hour early morning news show that would run Monday through Friday starting at 7 a.m. By developing Today, Weaver filled a programming void before viewers even realized there was one and revolutionized the viewing habits of millions. In *The Today Show: Transforming Morning Television*, Cathleen M. Londino provides an entertaining and informative look at the first twenty-five years of NBC's innovative program from 1952 through 1977. Focusing on Today's broadcast history, the personalities instrumental to the show's success, and the show's contributions to the entertainment industry, this account illustrates how the evolution of Today closely paralleled the development of the broadcast industry and rise of the major networks. In addition to chronicling the show's history, the author profiles some of the key players both behind and in front of the camera, including Dave Garroway, Barbara Walters, Tom Brokaw, and Jane Pauley. The vision of morning news developed by Weaver more than sixty years ago endured far beyond his wildest expectations, establishing a model that would eventually be adopted not only by competing networks but also by television programmers around the globe. *The Today Show: Transforming Morning Television* is a fascinating account of the unprecedented success of this influential program and will appeal to anyone interested in television history.

For twenty years after September 11 the war on terror was simultaneously everywhere and nowhere With all of the military violence occurring overseas Americans found themselves living in two worlds at the same time In one of them soldiers fought abroad so that nothing at home would have to change at all In the other life in the United States took on all kinds of unfamiliar shapes altering people s sense of themselves their neighbours and the strangers they sat next to on aeroplanes In a fascinating and exhaustive account of the meaning of twenty first century America Richard Beck delivers a gripping exploration of the transformation of American life wrought by the war He describes sports stadiums fortified to look like military bases The surging sales of guns SUVs and pickup trucks

The racism and xenophobia, the erosion of free speech and the normalisation of mass surveillance Beck searchingly asks why those Americans who excused the worst abuses of the war on terror also had the easiest time understanding themselves as patriots. The war fuelled an impunity culture he argues that came to a head with Trump's rise to power. To see America through the lens of Homeland is to understand the country like never before. **Focus On: 100 Most Popular American Game Show Hosts** Wikipedia contributors, *Hearings* United States.
