communication professional development and advocacy **Resources in education** ,1983-11 *Chain Reaction* Paul Domjan,Gavin Serkin,Brandon Thomas,John Toshack,2021-04-24 Amidst the constant stream of overly technical and excitable books heralding a blockchain revolution that s destined to be more disruptive than the Internet this book stands apart for its more nuanced take focusing on the potential for these new technologies to change developing countries for the better Chain Reaction divides the world into two for some blockchain seems a poor substitute for an efficient banking and regulatory system in which transactions are settled instantly and contracts are underpinned by solid institutions For others it will be truly life changing namely those living in countries where rule of law is weak concepts of ownership are vague and consequently trust in institutions is in scarce supply With blockchain we are about to witness a leapfrogging one that will bring the next billion emerging consumers into the formal economy by creating reliable institutions of contract ownership and trust among people previously denied such luxuries The authors humanize the technology by taking the reader on a global journey through a multitude of applications from registering property to voting and delivering aid In place of the usual abstract lessons in complex technology this book is instead filled with lively anecdotes of places where trust is so weak that a crisp dollar bill sells at a premium to a better used version The book s goal is to create the first truly approachable entirely comprehensible and enjoyable read on the wonders to come from blockchain Annual Review of Behavior Therapy ,1978 Consists of articles reprinted from various journals **Microsoft SharePoint** Scot P. Hillier,2007-05-02 Microsoft SharePoint Building Office 2007 Solutions in C 2005 is the third edition of Scot Hilliers market leading SharePoint book This book features extensive updates to the previous edition with a complete focus on SharePoint 2007 and its integration with the 2007 Microsoft Office System It also features new approaches for using SharePoint to improve business efficiency as well as new workflow solutions for SharePoint and BizTalk plus a new chapter on building a SharePoint solution from start to finish With this book you ll gain intermediate level guidance for designing and deploying business solutions based on Microsoft SharePoint 2007 technologies Hillier defines the business cases and scenarios for these technologies He also reviews the installation configuration and administration of business solutions based on Microsoft SharePoint technologies and provides programming instruction guidance and examples for custom web parts and solutions **Ontario Government Publications** ,1978 Cumulates monthly issues and includes additional material *Ontario Government Publications Annual Catalogue* ,1977 **Going Local** Michael Shuman,2013-06-17 National drug chains squeeze local pharmacies out of business while corporate downsizing ships jobs overseas All across America communities large and small are losing control of their economies to outside interests Going Local shows how some cities and towns are fighting back Refusing to be overcome by Wal Marts and layoffs they are taking over abandoned factories switching to local produce and manufactured goods and pushing banks to loan money to local citizens Shuman details how dozens of communities are recapturing their own economies with these new strategies investing not in outsiders but in locally owned businesses **Everybody Wins** James

Market as a Weapon Anton Oleinik,2017-09-08 Power is all encompassing in Russia and mediates most interactions among people including everyday decisions Even the recent administrative reforms in the country which began at the end of the 1990s have tried to reshape the government institutions and modernize the country through the use of power Changes were initiated and implemented by people vested with power Power convention and trust can all support coordination However in the Russian institutional context power tends not only to supplement the alternative coordination mechanisms but also to substitute them Power can be used to solve problems related to social action by merging two or several centers of decision making into one The actor vested with power decides exactly how coordination and adjustment can be achieved This path breaking volume shows how power turns into a unique coordination mechanism and what are consequences of such transformation for everyday life and businesses Market as a Weapon focuses on issues of power and domination using the configuration of power relationships in Russia as a critical case but goes far beyond a narrowly defined scope of country specific studies Particular emphasis is put on domination by virtue of a constellation interests in the market since this is a relatively underexplored yet broadly used technique for imposing will in all countries that heavily rely on interventionist policies Instead of being a liberating force the market becomes an additional instrument facilitating the continuous reproduction of power which explains the title of the book Both qualitative and quantitative data including more than one hundred in depth interviews with experts state servants

and businesspeople in Russia as well as statistics are used throughout the text of this major book
