

White Paper Template

Purpose

The purpose of this tool is to assist you with the creation of an effective White Paper. Focus on what is critical for your business, and modify this template as necessary.

Scope

Before you start, consider the purpose of your White Paper. Will this be used for internal knowledge management, external product/service marketing, or both? Can you repurpose this white paper and turn it into other pieces of content?

Use this template to document your ideas and give it to a good graphic designer so that they can put the finishing touches on it. When it comes to white papers, be sure to use a consistent structure and layout in order to make them easy to read and write.

Best Practices

- **Use industry reference data.** Find statistics, quotes and other reference material you can cite in your paper. It enhances your credibility and supports the perception that the paper is unbiased.
- **Use lots of graphics.** Great white papers are almost works of art. Invest in having a graphic designer collaborate on the design, layout and supporting graphics. It will improve the readability.
- **Use an outside reviewer.** Get someone who is an industry expert but does not work for you to review the paper. The last thing you want to happen is to invest in a white paper and publish it only to have prominent industry experts bash it. Ideally, you want the opposite to happen.

Women and Employment in Public Policy Susan Milner, 2024-07-20 In the UK women s economic empowerment through employment is a success story of the last three decades And yet women are over represented in low paid insecure jobs are under represented in top jobs and earn less than men on average with a marked income gap over the lifecourse When Labour took office in 1997 a new wave of women MPs entered parliament in record numbers and women gained access to ministerial roles including a newly created minister for women However policy on women and employment remained an area of conflict New rights were secured particularly for mothers but when Labour left office a sizeable policy agenda remained unfinished Using documentary evidence and interviews from leading policy actors from the period *Women and Employment in Public Policy* takes as its starting point the Women and Work Commission which was convened in 2004 to examine causes of the gender pay gap The commission was unable to defuse conflicts over equal pay but it set out an agenda for change at the level of government private sector work organizations and public sector organizations Milner examines why the commission could not resolve key conflicts and why its broad based recommendations were only partially taken up She traces the subsequent development of policy observing well established preferences for light

touch regulation which can raise awareness but leave entrenched practices unchallenged and weaken individual women's access to redress. Detailed study of the working of the commission provides lessons on the policy process particularly for those seeking to influence policy. It also shows that within the wider policy space opportunities for action to effect change are possible based on appeals to instrumental logic or political exchange but are constrained by party leadership.

Comparative Perspectives on Inquiry-Based Science Education Bevins, Stuart, Lehané, Louise, Booth, Josephine, 2019-03-15 The core practice of professional scientists is inquiry often referred to as research. If educators are to prepare students for a role in the professional scientific and technological community exposing them to inquiry based learning is essential. Despite this inquiry based teaching and learning IBTL remains relatively rare possibly due to barriers that teachers face in deploying it or to a lack of belief in the teaching community that inquiry based learning is effective. *Comparative Perspectives on Inquiry Based Science Education* examines stories and experiences from members of an international science education project that delivered learning resources based around guided inquiry for students to a wide range of schools in 12 different countries in order to identify key themes that can provide useful insights for student learning, teacher support and policy formulation at the continental level. The book provides case studies across these 12 different settings that enable readers to compare and contrast both practice and policy issues with their own contexts while accessing a cutting edge model of professional development. It is designed for educators, instructional designers, administrators, principals, researchers, policymakers, practitioners and students seeking current and relevant research on international education and education strategies for science courses. *The Thirty Years War: My Life Reporting on Education* Richard Garner, 2016-11-14 Richard Garner has spent 36 years reporting on education working for the Times Educational Supplement, The Mirror and The Independent. In *The Thirty Years War* he retraces the steps of his career examining the policies, personalities, success stories and outright failures of the UK education scene from the 1980s to the present day. Richard gives his verdict on the 16 Education Secretaries he has seen come and go and offers an insider's view of the major issues and events of his time in office ranging from the fight to abolish corporal punishment to the rise of the academy movement and now the Government's move to open new grammar schools. It is a story of power, policies and personalities and how the events of the past three decades have shaped the education sector in the UK today. *Becoming A Teacher: Issues In Secondary Education* Dillon, Justin, Maguire, Meg, 2011-07-01 *Becoming a Teacher 4e* remains a unique and powerful combination of ideas, analysis, questions, answers and wisdom drawing on the professional experience of the editors and contributors. **Achieving your Diploma in Education and Training** Jim Gould, Jodi Roffey-Barentsen, 2018-01-08 This book supports the Level 5 Diploma in Education and Training for anyone training to teach in the further education and skills sector.
