global threat of climate change Humanizing Cities Through Car Free City Development and Transformation is an essential publication that explores the concepts of car free cities and city humanization as possible solutions to reduce the deteriorating effect on the environment and the community The publication discusses the urban initiative to implement pedestrianization and humanization of cities and public spaces to promote the concept of car free living Featuring coverage on a wide range of topics including city humanization smart mobility and urban policies this book is ideally designed for urban planners environmentalists government officials policymakers architects transportation authorities researchers academicians and students *Slightly Slower 66* John Mulhern III,2015-09-07 In *Slightly Slower 66* John Mulhern III writes about traveling a total of 6 094 miles in fifteen days including eight wonderful days on Route 66 itself The route goes through sixteen widely and wildly different states including not only stops in the big cities of Chicago Santa Fe Los Angeles and Denver but also nights spent in the small cities and towns of Tucumcari Holbrook and Barstow The expected adventures on the road yield to visits with friends old and new encounters with various other Corvettes and other vehicles of interest and more than a few great places to eat sometimes in the most unexpected places Maimonides in His World Sarah Stroumsa,2009 While the great medieval philosopher theologian and physician Maimonides is acknowledged as a leading Jewish thinker his intellectual contacts with his surrounding world are often described as related primarily to Islamic philosophy Maimonides in His World challenges this view by revealing him to have wholeheartedly lived breathed and espoused the rich Mediterranean culture of his time Sarah Stroumsa argues that Maimonides is most accurately viewed as a Mediterranean thinker who consistently interpreted his own Jewish tradition in contemporary multicultural terms Maimonides spent his entire life in the Mediterranean region and the religious and philosophical traditions that fed his thought were those of the wider world in which he lived Stroumsa demonstrates that he was deeply influenced not only by Islamic philosophy but by Islamic culture as a whole evidence of which she finds in his philosophy as well as his correspondence and legal and scientific writings She begins with a concise biography of Maimonides then carefully examines key aspects of his thought including his approach to religion and the complex world of theology and religious ideas he encountered among Jews Christians Muslims and even heretics his views about science the immense and unacknowledged impact of the Almohads on his thought and his vision of human perfection This insightful cultural biography restores Maimonides to his rightful place among medieval philosophers and affirms his central relevance to the study of medieval Islam Paperbound Books in Print ,1992 Daniels' Orchestral Music David Daniels,David W.
