The Brown Alumni Monthly ,1914 **Critical Language Awareness and Teacher Cognition in ELT** Robert Weekly,2025-10-16 The book argues for the incorporation of Critical Language Awareness CLA in English language teaching and more broadly within mainstream education The conception of CLA draws together significant areas of recent sociolinguistic research reflecting dramatic changes in the global environment and the consequent impacts on English language teaching Teachers pedagogical beliefs and language attitudes are discussed in relation to these changing sociolinguistic conditions seeking to address teachers principal concerns English language teachers are on the front line in finding a balance between students expectations institutional requirements and the needs of neo liberal societies demanding a flexible transmigratory multilingual English speaking workforce To investigate the impact of these changing conditions this book explores the diversity of English language teachers cognitions Data are examined from focus groups across China Turkey and the UK including 63 teachers from 16 countries speaking a total of 21 different languages The diversity of the participants in terms of their language background teaching experience and teaching qualifications enables identification of core factors across the groups in how they engage with challenges in their everyday teaching practices **Transforming Nursery Education** Peter Moss,Helen Penn,1996-03-28 This is an important publication which I urge colleagues to read and to consider carefully all the implications Early Years This provocative analysis with its clear examples is worth reading for its fresh look at where we could be headed come the 21st century Nursery Equipment Early childhood services in the UK have been badly neglected The consequences are serious chronic underfunding and increasing fragmentation most staff poorly paid and trained access often a matter of potluck and money low aspirations and even lower expectations Increasingly young children are seen as important for what they may become rather than for what they are and the case for early childhood services is made out in terms of later performance in school and adult life rather than the needs and rights of young children themselves No current political vision redresses this undervaluing of early childhood or addresses the parlous state our early childhood services are in Drawing on the rich early childhood tradition in the UK going back to Robert Owen and giving examples from current practice Transforming Nursery Education offers a critique of the status quo a vision of early childhood services and practical strategies for achieving it The book covers a wide range of day care and education services and critical issues such as staffing funding curriculum models of provision and the age at which children start compulsory schooling Within this broad approach the book focuses in particular on the history and current practice of nursery education It argues

that the present narrow approach to nursery education is neither appropriate to the needs of today nor inevitable It answers a critical question how can nursery education be transformed to play a leading role in the comprehensive integrated and coherent early childhood service that today s families really need Nature and Science Education Review ,1928 **How To Tie A Tie** Steven L. Denlinger,2025-09-20 What happens when the rules meant to save your soul become the chains that break your spirit Raised in a Mennonite world where God s love came with a belt Steven Denlinger was taught to fear hell but it was life within his own community that became the source of his deepest wounds How To Tie a Tie is an inspiring memoir of how he found the courage to walk away from religious trauma and discover a new faith that heals rather than harms The first born son of a large and raucous family Steven always knew his community felt strange Being a good Christian meant following a list of rules to avoid hellfire No movies No radio Women wore cape like dresses to disguise their sinful bodies Parents and teachers had the right to beat you Long before his teens these earnest sermons and rigid dictates sent him fleeing to the kitchen screaming I m dying I m dying Decades later he finally discovered he was suffering from religious trauma due to the ritualized physical abuse he experienced within a Christian setting Steven s need to escape and his passion for a first rate education led to a Rotary Foundation Scholarship that sent him abroad to the sinners mecca of London His struggles to assimilate detailed in vulnerable letters home inspired his family to send an emissary pleading with him to return Steven s final break with his Mennonite community launched him on a confusing journey of grief loss and discovery Outwardly a successful high school English teacher and theatrical director his struggles to assimilate with the modern world led to many stumbles Eventually he found personal transformation and built a vibrant new community in his diverse world Written in a wry raw and reflective tone How To Tie a Tie is a powerful and timely memoir the quest to discover a new faith that offers hope and a path to personal freedom for anyone still trapped in a patriarchal fundamentalist community Vocational Education Bulletin United States.
