Islamic Economics, Growth and Development Mustafa Metin Başbay, 2025-09-01 The study of economic development is inherently grounded in philosophical and ethical assumptions In other words to discuss economic development either at a conceptual level or as a real process necessitates an ethical and philosophical basis The authors of this book believe that Islamic economics can serve as such a basis one that emanates from Islamic principles and values This book presents a distinctive ethical and philosophical framework one that is grounded in Islamic principles and the established literature of Islamic economics and finance to analyse and interpret the concept of economic development as well as to propose policy solutions to real world development problems and challenges The book contains theoretical and empirical studies which connect the literature of Islamic economics with economic development While some chapters discuss development at the conceptual philosophical level others examine the real world issues faced by developing countries It proposes institutional constructs as well as concrete public policies to face developmental challenges such as fighting poverty and inequality environmental and social sustainability industrialisation and industrial policy and social services and human capital Serving as both an introduction and a comprehensive resource this book illustrates how the concepts and problems of economic development can be examined from an Islamic economics perspective and as such will equip researchers and students with a basic understanding of how

Islamic economics interacts with the issues of economic development *Econometric Analyses on Global Finance and Economic Development* Abdul-Maliq, Yekeen Oku, 2024-01-29 Understanding the complex interplay between economic ideologies political systems and international relations is more critical than ever The legacy of the Cold War still lingers shaping the global stage in myriad ways The ideological divide between capitalism and communism democracy and authoritarianism has left a lasting mark on our political and economic landscapes However as the world continues to evolve traditional definitions and assumptions about these ideologies have begun to blur creating a pressing need for fresh perspectives The book *Econometric Analyses on Global Finance and Economic Development* serves as a beacon of knowledge for scholars students and policymakers seeking a deeper understanding of economic history political economy and international relations By meticulously analyzing fifteen countries the book unveils a remarkable transformation in economic ideologies and their impact on prosperity From the post Cold War era to the present day it provides empirical evidence of how these shifts have led to more resilient and buoyant economies Targeted towards those interested in the intersection of history economics and politics this book presents an extensive analysis of countries such as China India Vietnam and many others shedding light on their economic transformations and their path to global prosperity Whether you are a student a researcher or a decision maker in the fields of economics international relations or development finance this book offers valuable insights into the dynamic forces shaping our world **Why States Matter in Economic Development** Jawied Nawabi, 2024-04-29 This book examines the underlying conditions that give rise to states that are effective efficient and bureaucratically inclusive with their developmental policies In spite of humanity's significant advancements in science technology and institutionalization of universal human rights conventions in the last seven decades many countries are still failing to achieve successful development results As a result enormous levels of inequality poverty and malnutrition prevail This book focuses on the role of the state in the political economy of development tracing the socio economic origins of effective state institutions from a comparative historical institutional perspective Drawing on the case studies of South Korea Brazil India Spain France and England the study looks at how good state institutions form and why these are central to the socioeconomic advancement of their populations The book contends that effective developmental states are those in which state actors are able to effectively diminish and co-opt the power of the country's landed elites during the early years of state building Effectively the power balance between these two classes determines the developmental trajectory of the state Considering agrarian reform as the foremost indispensable policy tool to open conditions for positive changes in effective taxation education healthcare and strategic sustainable industrial policies this analysis offers a significant contribution to the literature on the sociology of institutions and the political economy of development As well as being a key reading for advanced students and researchers in these areas this book draws real life policy lessons for practitioners and policy makers in the developing world Development Management Justice Nyigmah Bawole, Farhad Hossain, Asad K. Ghalib, Christopher

J. Rees,Aminu Mamman,2016-10-04 Despite significant financial investments the rate of development and pace of poverty reduction in developing and transitional countries has not always matched expectations Development management typically involves complex interactions between governmental and non governmental organisations donors and members of the public and can be difficult to navigate This volume brings together a group of international contributors to explore the theoretical and empirical underpinnings of development management and to consider the prospects and challenges associated with it in the context of both developing and transitional countries Referring to dominant norms and values in public and developmental organisations development management is tied up with the attitudes and perceptions of various stakeholders including government officials public sector managers aid workers donors and members of the public Attempting to make sense of complex interactions between these actors is highly problematic and calls for new approaches models and insights Based on cutting edge research the chapters challenge much of the previous discourse on the subject and evaluate the challenges and opportunities that it presents Development Management offers academics researchers and practitioners of public administration business and management international development and political science a comprehensive and state of the art review of current research on development management in the context of developing and transitional countries

Trade, Investment and Economic Growth Pooja Lakhanpal,Jaydeep Mukherjee,Biswajit Nag,Divya Tuteja,2021-05-10 The book contributes to the growing literature pertaining to empirical and policy issues in international trade foreign capital flows and issues in finance implications for India and emerging economies related to trade and development interface and analysis of sector level growth and development in India Further the focus is on the policy aspects of these themes and their role in fostering economic development in the context of India and other emerging market economies The discourse focuses mainly on empirical work and econometric details The relevant issues are investigated using state of the art techniques such as gravity models panel co integration generalized hyperbolic distributions SEM FMOLS and Probit models In addition detailed literature survey discussions on data availability issues related to statistical estimation techniques and a theoretical background ensure that each chapter significantly contributes to the ever growing literature on international trade and capital flows The readers shall find an engaging dialogue on the crucial role played by policy and the trade capital flows growth experience of emerging economies The book is relevant for those who are interested in contemporary issues in trade growth and finance as well as for students of advanced econometrics who may benefit from the analytical and econometric exposition The empirical evidences provided here could serve as ready reference for academicians researchers and policy makers particularly in emerging economies facing similar challenges *Socio-Economic Development: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources,2018-11-02 The social and economic systems of any country are influenced by a range of factors including income and education As such it is vital to examine how these factors are creating opportunities to improve both the economy and the lives of people within these countries Socio

Under Construction: Logics of Urbanism in the Gulf Region Steffen Wippel, Katrin Bromber, Birgit Krawietz, 2016-02-17 Interdisciplinary in approach this volume explores and deciphers the symbolic value and iconicity of the built environment in the Arab Gulf Region its aesthetics language and performative characteristics Bringing together a range of studies by artists curators and scholars it demonstrates how Dubai appeared at least until the financial crisis to be leading the construction race and has already completed a large number of its landmark architecture and strategic facilities In contrast cities like the Qatari capital Doha still appear to be heavily under construction and in countries like the Sultanate of Oman ultra luxury tourism projects were started only recently While the construction of

artificial islands theme parks and prestige sport facilities has attracted considerable attention much less is known about the region's widespread implementation of innovative infrastructure such as global container ports free zones inter island causeways and metro lines This volume argues that these endeavours are not simply part of a strategy to prepare for the post oil era for future economic survival and prosperity in the Lower Gulf region but that they are also aiming to strengthen identitarian patterns and specific national brands In doing so they exhibit similar yet remarkably diverse modes of engaging with certain global trends and present questionably distinct ideas for putting themselves on the global map Each country aims to grab attention with regard to the world wide flow of goods and capital and thus provide its own citizens with a socially acceptable trajectory for the future By doing that the countries in the Gulf are articulating a new semiotic and paradigm of urban development For the first time this volume maps these trends in their relation to architecture and infrastructure in particular by treating them as semiotics in their own right It suggests that recent developments in this region of the world not only represent

The Demographic Crisis in Europe Richard R. Verdugo, 2021-05-01 By most accounts Europe has been mired in a demographic crisis since about 1970 By a demographic crisis is meant that Europe's dependency ratio is increasing and the net result has been declining populations and fewer workers to sustain society However there are certain issues that need attention Two topics seem to capture some of these issues The implications of the possible crisis and the crisis assessment The present volume is organized around both topics implications and assessment There are at least three contributions being made by the proposed volume To begin with while there are other issues related to the demographic crisis in Europe the present volume should motivate additional research Secondly the research in the proposed volume does not necessarily assume that there is a demographic crisis in Europe nor that it is consistent across national lines Thus each chapter in essence examines a different issue associated with the proposal that there is a crisis Finally the present volume makes several methodological contributions For example the chapter by David Swanson uses non Bayesian modeling in studying infant mortality Richard Verdugo examines the dependency ratio and selected factors on economic growth in selected European nations Kposowa and Ezzat conduct an assessment Martins examines variation in the path toward a crisis Johnson examines humanitarian migration and the crisis Edmonston examines the association between geopolitics and the crisis

Handbook of Ethics of Islamic Economics and Finance Abbas Mirakhor, Zamir Iqbal, Seyed Kazem Sadr, 2020-04-20 Since the financial crisis of 2007-2008 a renewed discussion on the ethics and finance is being examined from different dimensions finance for good society responsible finance ethical finance financial crimes and financial repression The principal objective of this Handbook on Ethics of Islamic Economics and Finance is to provide a deeper understanding of the ethical underpinning of Islamic economics and finance The reader will notice that the Handbook reflects a diversity of views on the subject of economic and business ethics in Islam across the intellectual spectrum of Muslim thought over the globe Handbook attempts to find answers to some questions concerning the definition and

characteristics of the ethical system in Islam What is its goal and how do its rules and practices ensure welfare for individuals and society Are the moral principles universal and invariable or do they change and adapt with the social changes of communities and progress in science and technology Is the present generation accountable for the welfare of future generations Where is the boundary between law and ethics and who guarantees their adoption and implementation

Strengthening Governance Globally Barry B. Hughes, Devin K. Joshi, Jonathan D. Moyer, Timothy D. Sisk, Jose Roberto Solorzano, 2015-11-17 Strengthening Governance Globally is the fifth volume in the series Patterns of Potential Human Progress Each volume considers one key aspect of how development unfolds globally and how better to move it in desired directions This volume identifies the provision of security the building of government capacity and the broadening of inclusion of governance on which high income countries have traditionally made long historical transitions In contrast many developing countries today struggle with all three governance transition dimensions simultaneously Strengthening Governance Globally uses the growing empirical database on governance variables to understand historical change

Revitalising Rural Communities Jessica M. Williams, Vivian Chu, Wai-Fung Lam, Winnie W.Y. Law, 2021-10-08 This book highlights the challenges and opportunities of re constructing a sustainable rural community on the outskirts of the urban community Based on knowledge and experience accumulated through implementing a rural revitalisation project in Hong Kong since 2013 the book provides an in depth analysis of a case study along with related concepts from the literature In particular the concept of rural resilience is broken down and used to examine how communities at the urban rural interface can leverage their position and connections to re create vibrant sustainable communities The revitalisation project was showcased in the databases of the United Nations Development Programme UNDP s Equator Initiative and the International Partnership for the Satoyama Initiative IPSI as well as achieving Special Recognition for Sustainable Development in the UNESCO Asia Pacific Awards for Cultural Heritage Conservation in 2020 This book teases out the key issues in the process of revitalising a rural community in the peri urban context and examines the complexities embedded in each issue and how they can be addressed in the quest for rural sustainability
