system worship practices Rites Rituals Christian life Contributions Spirituality and a few of the main doctrinal and theological items It further examines the earlier phase of the history of Christianity starting with the traditional belief of the arrival of St Thomas in AD 52 moving to the periods of its association with the Chaldean church the Portuguese the Dutch English and so on This volume highlights the missionary activities of persons like St Francis Xavier the creative contributions made to the inter religious dialogue by such people as Roberto de Nobili 1577 1656 and Swami Abhishiktananda 1910 1973 the linguistic and educational contributions of some of the pioneers like the German Jesuit Johanne Ernst Hanxleden known as Arnos Padiri 1681 1732 Herman Gundert 1814 1893 St Elias Kuriakos Chavara 1805 1871 and a fortiori the enormous contributions in the healthcare area throughout the country Caring for and serving the socio economically marginalized ones the peripheralized people formed an integral part of the Christian activity In India as it is done even today This is highlighted very much in the volume It further explores the contact India had with European Christianity showing that European Christianity proved to have wider influence in the Northern part of India unlike India's early episodic encounters with Palestinian and Persian forms of Christianity which had deep influence in the Southern part of India The volume also highlights the inner struggle among the followers resulting even in its division originating at the Synod of Diamper in 1599 manifesting by and large the Church state love and hate relationships In fine in spite of the drawbacks of putting the herculean task of two thousand years of history in eight hundred pages or so this volume gives a rather comprehensive view of Christianity in India especially to those who are unfamiliar with its life and dynamics in the Indian context The wide range of photographs 325 of them especially of the churches revealing the architectural beauty and multiplicity along with the ensample of art and paintings and pilgrimage centers adds to the enrichment of the volume *The Institute Tie*, 1904

Snapshots: An X-ray of Cameroons Democracy, Governance and Unification Sam-Nuvala Fonkem, 2014-01-20 In the 1960s and 1970s Third World governments prescribed and imposed a certain kind of journalism variously called objective journalism or development journalism They understood this as journalism restricted to reporting facts as dished out by their propagandists and did not tolerate the questioning of government policy By development journalism they meant the mere reporting of government efforts to provide services amenities and infrastructures and the singing of praises anytime a bridge was inaugurated irrespective of whether it was well built or whether the contract to build was awarded according to the norms of transparency and probity This one sided journalism was prevalent especially in state owned media and media practitioners in the few private news publications that existed who did not toe the line were subjected to constant harassment and incarceration However with the coming of well trained journalism graduates into the scene in the 1970s and the advent of global liberalization in the late 1980s and 1990s daring journalists like Sam Nuvala Fonkem thought it was time to take the bull by the horn and start taking a more critical look at government pronouncements matching policy statements with real action in the field in short moving from objective journalism to interpretative and investigative journalism This

collection of Sam Nuvala Fonkems writings is a sampling of the fruit of that new spirit to dare where angels hitherto feared to tread to hold public officials to account and to expose the falsehood cached behind the political masquerade of the ruling class
