Understanding Multimodal Discourses in English Language Teaching Textbooks Christopher A. Smith, 2022-08-11 Textbooks are indispensable components and in some case the cornerstones of the mission of English Language Teaching (ELT). However, they are artefacts of a pedagogical culture that rarely echo the concerns of their most prolific consumers: teachers and students. This book offers a useful framework for evaluating ELT textbooks from a critical discourse perspective, one that is based on sound current research but also offers practical guidance to teachers. Building from a foundational understanding of ELT textbooks, the author presents a systematic procedure to critically analyze their multimodal discourse, examine how those discourses are negotiated between teachers and students in class, and measure how those consumers privately value the lessons. The book provides teachers with the tools they need to select and adapt materials based on critical multimodal discourse analysis, where not only the text but the pictures, websites, audio-visual elements too are subjected to a process which can reveal underlying ideologies, assumptions, omissions, and reifications. The triangulated approach demonstrated in a series of vignettes featuring Korean university students and native English speaking instructors can inform textbook choice, instigate change, and inspire lesson re-contextualization to best suit the needs of its primary consumers.

Top Notch prepares students to communicate in English with a diverse array of speakers around the world who have a wide range of native and non-native accents. An emphasis on cultural fluency enables students to navigate the social, travel, and business situations that they will encounter in their lives. and projects **Hezbollah** Hadi Wahab, 2022-06-19 This book examines Hezbollah's transition from a domestic into a regional armed non state actor ANSA Taking its point of departure in Hezbollah's historiography on the military and political levels in Lebanon it focuses on the participation of Hezbollah's troops in Syria's sect coded civil war Initially limited Hezbollah's intervention in the Syrian conflict gradually increased into a full scale engagement across vast swathes of Syrian territory with Hezbollah instrumentalizing its sectarian Shi'a identity to justify its engagement Sect centric narratives and victimhood were a mere tool for what was a geopolitical confrontation and Hezbollah's involvement launched it to becoming a regional ANSA The book outlines that this transition was only plausible because of the interplay between three factors Hezbollah's sectarian mobilization and instrumentalization of its sectarian identity the shift into a quasi army combining classical with guerrilla tactics and formations and its embedding as a partner in the axis which now extends from Beirut to Tehran It was in 2018 that a set of conditions impossible to reproduce allowed Hezbollah to reach its culmination on both the domestic and regional theatres This book shows that ANSAs are playing prominent roles in the regional order in the Middle East Meticulously researched Hezbollah is a comprehensive study ideal for upper level undergraduates and above with an interest in Middle East studies Middle East politics and international relations Issues in Materials Development Maryam Azarnoosh, Mitra Zeraatpishe, Akram Faravani, Hamid Reza Kargozari, 2016-03-22 Issues in Materials Development provides readers with theoretical foundations and practical aspects of designing materials for EFL ESL contexts It starts with discussing some basic and preliminary principles of materials design followed by scrutinizing critical issues in materials development in an objective and systematic way This ranges from considering learners needs adopting adapting selection and gradation of materials to the specific focus of the book on developing various types of materials for the four language skills pronunciation ESP vocabulary and computer assisted language learning materials Authenticity of materials to be designed and the inclusion of affective factors to develop motivating materials to engage language learners in addition to features of materials design at a universal level are other areas to read about This book finally tries to open new horizons and possible futuristic approaches to improve today's ELT materials
