Top Notch Teacher 2nd Edition:

Podcasting for Teachers Revised 2nd Edition Kathleen P. King, Mark Gura, 2008-12-01 This book introduces and explains this important new technology from the perspective of educators. It also provides new insights into the ways that technology can provide solutions to instructional needs that have not been sufficiently addressed until now. Not only does it provide concrete explanations, examples, models, and details about methods and resources that are not currently illustrated in other publications, but it also reveals a new rationale for the use of technology in education. This book helps readers apprehend critical issues essential to understanding and taking advantage of podcasting and related technologies as an educational resource. What podcasting is. How to do podcasting. How to plan podcasting based activities for students. How to create podcasts as teaching resources. How to use podcasting for professional development. Models developed specifically by the authors regarding Podcast development. Educators learning curve in podcasting. Cost benefit decision making regarding podcasting projects. K-12 school district directors of curriculum and instruction and directors of professional development as well as classroom teachers, principals, and instructional supervisors across the core curriculum and in the area of Instructional Technology and teacher educators and other college faculty will find this book a valuable resource. Readers may use the book as part of their own efforts to expand their teaching or staff development practice. It can also be an important resource for Education courses in content instruction and Instructional Technology and serve as a valuable reference for educators interested in educational applications of technology. What you will find in this revised and updated edition. New for this edition are valuable additional insights and updates related to our additional years of experience in podcasting and new media. Critical updated URLs, screenshots, software comparisons, data, some fresh new curricular examples, and included references to our new series The Teachers Podcast and Transformation Education LIVE. We have also upgraded statistical information, advancements from the podcasting world, references, and biographical information. In short, the book is better than ever in part because of suggestions from our many readers who are teachers, learners, and podcast listeners of course. The 16 chapters of the book are divided into the following major sections: PART I: A REVOLUTION IN OUR POCKETS; PART II: PODCASTING HOW TO BASICS; PART III: BECOMING A PODCASTING EDUCATOR. **Infants and Toddlers at Work** Ann Lewin-Benham, 2023. Now in a second edition, this popular resource shows teachers and childcare providers how to work with young children based on current neuroscience research. Revised and expanded, it contains a wealth of practical and specific activities and materials to use with infants and toddlers to enhance growth and development. For each activity presented, the text examines its relation to the rapid brain growth that characterizes the 0 to 3 years, including major developments in sensory reception, movement, language, cognition, memory, vision, and motivation. Featured materials with guidance for their use and where to find them include paint, mark makers, man-made found objects, natural objects, clay, paper, and light and shadow. This edition features many full-color images and two new chapters on using electronic technology with infants and

toddlers written by outstanding early educators This is an essential guide for trainers and professionals who work with very young children as well as parents and other caregivers Book Features The interpretation of current neuroscience as a supplement to the wisdom of excellent early childhood educators Numerous vignettes of teachers at work with young children inspired by the experiences of lifelong early educator Ann Lewin Benham New ideas regarding the responsible introduction of electronic technology to young children Original color photos of children learning with traditional materials such as paint clay and fabric as well as with electronic devices such as cameras and computers Insights and practices of renowned cognitive psychologists including Stanislas Dehaene In this well researched and aptly illustrated book master educator Ann Lewin Benham surveys authorities like Piaget exemplary programs like Reggio Emilia materials like paper and clay as well as current research on the brain and on technology and skillfully integrates them Howard Gardner Hobbs Research Professor of Cognition and Education Harvard Graduate School of Education A wealth of information and specific suggestions for creating learning environments that capitalize on current knowledge make this an invaluable guide for practitioners and teacher educators Young Children Ann Lewin Benham s book represents an extraordinarily comprehensive yet usable guide to the neuroscientific state of the art in infant and toddler cognitive development Full of practical recommendations for engaging young children s brains with the physical world around them this volume will connect strongly with educators and caregivers alike Mariale Hardiman interim dean School of Education Johns Hopkins University As we learn more and more from neuroscience about the development of the infant brain two things have become clear how competent babies are and how much they depend on relationships to frame their early development In her new book Ann Lewin Benham helps us to understand how to respectfully relate to the developing brain J Ronald Lally co director Center for Child Family Studies WestEd

Issues in Materials Development Maryam Azarnoosh,Mitra Zeraatpishe,Akram Faravani,Hamid Reza Kargozari,2016-03-22 Issues in Materials Development provides readers with theoretical foundations and practical aspects of designing materials for EFL ESL contexts It starts with discussing some basic and preliminary principles of materials design followed by scrutinizing critical issues in materials development in an objective and systematic way This ranges from considering learners needs adopting adapting selection and gradation of materials to the specific focus of the book on developing various types of materials for the four language skills pronunciation ESP vocabulary and computer assisted language learning materials Authenticity of materials to be designed and the inclusion of affective factors to develop motivating materials to engage language learners in addition to features of materials design at a universal level are other areas to read about This book finally tries to open new horizons and possible futuristic approaches to improve today s ELT materials
