*Man-Time-World* Mogens True Wegener,2023-01-31 The present book is a collection of papers from my life as a philosopher Besides philosophy it also covers the topics of logics physics cosmology and theology In all these fields it has been my aim to propose new ideas as a solution to old problems The collection contains papers on issues from the entire European history of ideas treating philosophical themes of Plato Augustine Anselm Dante Cusanus Leibniz Kant Hegel Kierkegaard and Borges together with the logical ideas of Peirce and Prior the physical ideas of Einstein and Milne and the crazy hypotheses marring modern cosmology In order to clear the way for new ideas I have had to chastise cherished positions especially that of the current physical establishment which promotes Einsteinian relativity as if his theories were the final scientific answer to all questions concerning the universe Einstein was a great scientist no doubt but today he is exalted as the prophet of our time whose words are swallowed as the highest wisdom by lay people Further the cosmology founded upon his relativity theories are feigned to buttress the stance of the new atheism It is unbearable that our scientific societies and magazines do not accept ideas which question the currently established scientific paradigm This is dogmatism at its worst

Weil,2017-10-18 After I retired from working I decided that now that my wife of thirty nine years had passed away I needed to relate about the events I experienced for the benefit of my children I had been involved in working at several jobs over my lifetime and I wanted my children to recognize what their parents had gone through I wished my own parents had been able to relate what they had seen and experienced in their lives But that was not to be They were too busy trying to raise a growing family during the trying years of the Great Depression I never agreed that there was anything great about the Depression of the 1930s Possibly this will encourage others to take time to write of their own life for their children      *Lectures on Christian Theology. **John Verse by Verse** Grant R. Osborne, 2018-05-02 John is at once the most complex and the easiest to understand of all the Gospels If we want a young seeker or new believer to read something that is both clear and filled with the gospel and good basic theology we give them the Gospel of John And if we want to study an incredibly deep theological masterpiece that stretches the brightest mind we open the Gospel of John It is the most evangelistic account of Jesus life and ministry and it also gives the mature Christian deep theological truths to chew on In John Verse by Verse respected New Testament scholar Grant R Osborne invites the reader to become caught up in the dramatic masterpiece of the Fourth Gospel He writes If I were teaching a course in college or seminary on creative writing John s Gospel would be set alongside Shakespeare as models of brilliant characterization and plot It is perhaps Osborne s favorite book of the Bible and enthusiasm for it shines on every page The Osborne New Testament Commentaries by respected professor and author Grant R Osborne are for people seeking a straightforward explanation of the text in its context avoiding either oversimplification or technical complexity Osborne brings out the riches of the New Testament making each book accessible for pastors and all who consider themselves students of Scripture

can alter the timeline while others are prevented from causing temporal aberrations The fluid forms of imagined time travel have fascinated audiences and prompted debate since at least the 19th century What is behind our fascination with time travel What does it mean to be out of one's own era How do different media tell these stories and what does this reveal about the media's relationship to time This collection of new essays the first to address time travel across a range of media answers these questions by locating time travel narratives within their cultural historical and philosophical contexts Texts discussed include Doctor Who The Terminator The Georgian House Save the Date Back to the Future Inception Source Code and others
