Thomas International General Intelligence Assessment:

Cultural Intelligence in the World of Work Yuan Liao, David C. Thomas, 2020-01-28 This book provides a comprehensive review of both the theoretical development and empirical study of the concept of cultural intelligence. A review of previous work on cross cultural competence provides an historical backdrop against which the two main theories of cultural intelligence are presented. These two approaches as well as the assessments derived from them are compared and evaluated. Issues associated with the measurement of cultural intelligence are examined in detail. An important feature of the review of the empirical work on cultural intelligence is that results are discussed in terms of the relationship of the four sub dimensions of the Cultural Intelligence Scale CQS and also that results using the Short Form Cultural Intelligence Scale SFCQ and other measures of the concept are included. The review of empirical work includes studies that cast cultural intelligence as an antecedent as a dependent variable and as a moderator and a mediator. Cultural intelligence at the group and organizational levels are also discussed. Finally this review sets the stage for a discussion of appropriate future directions in the study of cultural intelligence. Scholars in organizational psychology interested in the concept of cultural intelligence will find this an essential guide.

Safety and Health Competence Ulrike Bollmann, George Boustras, 2020-06-11 Global and technological transformation is changing work and learning. A broader understanding of prevention and cultural change associated with it is putting new demands on companies and their employees. People and organizations need suitable competences to deal with this transformation. They need to be empowered to shape decent living and working conditions. **Safety and Health Competence: A Guide for Cultures of Prevention** is written in the context of work and health. The use of a social constructive and a context sensitive approach to competence in occupational safety and health is new and forms a theoretical basis for putting into place the necessary learning processes for cultural transformation in companies and educational institutions. Covers a broad range of new demands placed on companies and employees in this age of global and technological transformation. Provides assistance with a better understanding of the current debate on occupational safety and health. OSH competences. Presents a comprehensive source of information for OSH experts, human resource specialists, educational institutions, training development specialists, teachers and trainers, allowing them to identify competence needs, promote competence development and assess competences. Explains what the concept culture of prevention means. Offers real life examples that will appeal to practitioners.

Unleashing the Power of Diversity Bjørn Ekelund, 2019-05-29 Unleashing the Power of Diversity provides a clear tool to create a common language across teams and organisations that reinforces positive identity, builds trust towards people, and processes support innovation and helps make diversity sustainable. The complex problems that many organisations and teams now face are global in scope, including cultural, social, and environmental issues. Challenges such as climate change, mass migration, and human rights do not respect national borders or sociodemographic groups. In order to solve these complex problems, we need the skills to be able to communicate effectively across the differences that may otherwise divide us. In this ground-breaking book, award-winning consultant and author Bjørn Z. Ekelund presents a clear, step-by-step approach to communicate with people who have different mindsets, perspectives, and cultural backgrounds. It is relevant and applicable across various contexts within the workplace, inter-professional, across different industries and cultures, and between corporate, governmental, and NGO groups. The programme developed in the book, called the Diversity Icebreaker, has been

successfully applied across 70 countries and with 250 000 participants It shows how to break down these barriers and provides a new way to conceptualise diversity across various boundaries allowing for trust and unity to form and creating a pathway for improving communication *Proceedings of the Seventh International Scientific Conference “Intelligent Information Technologies for Industry” (IITI’23)* Sergey Kovalev,Igor Kotenko,Andrey Sukhanov,2023-09-20 This book contains the works connected with the key advances in Industrial Artificial Intelligence presented at IITI 2023 the Seventh International Scientific Conference on Intelligent Information Technologies for Industry held on September 25 30 2023 in St Petersburg Russia The works were written by the experts in the field of applied artificial intelligence including topics such as Machine Learning Explainable AI Decision Making Fuzzy Logic Multi Agent and Bioinspired Systems The following industrial application domains were touched railway automation cyber security intelligent medical systems navigation and energetic systems The editors believe that this book will be helpful for all scientists and engineers interested in the modern state of applied artificial intelligence
