and in a diverse range of writings that includes travel diaries missionary texts the findings of the Leprosy Investigation Commission early medical accounts and media representations of HIV AIDS Examining trade in commodities as various as illicit drugs liquor bananas tourism adventure fiction and modern Aboriginal art as well as cultural exchanges in politics medicine and literature the essays reflect the widespread origins of the contributors themselves who are based throughout the English speaking world Taken as a whole this book contests the commonplace view promoted by some modern economists that trade in and of itself has a leveling effect equalising cultures places and peoples demonstrating instead the ways in which commerce has created and exacerbated differences in power Economic Sanctions R.
