James N. Green,2001-12 For many foreign observers Brazil still conjures up a collage of exotic images ranging from the camp antics of Carmen Miranda to the bronzed girl or boy from Ipanema moving sensually over the white sands of Rio's beaches Among these tropical fantasies is that of the uninhibited and licentious Brazilian homosexual who expresses uncontrolled sexuality during wild Carnival festivities and is welcomed by a society that accepts fluid sexual identity However in *Beyond Carnival* the first sweeping cultural history of male homosexuality in Brazil James Green shatters these exotic myths and replaces them with a complex picture of the social obstacles that confront Brazilian homosexuals Ranging from the late nineteenth century to the rise of a politicized gay and lesbian rights movement in the 1970s Green's study focuses on male homosexual subcultures in Rio de Janeiro and Sao Paulo He uncovers the stories of men coping with arrests and street violence dealing with family restrictions and resisting both a hostile medical profession and moralizing influences of the Church Green also describes how these men have created vibrant subcultures with alternative support networks for maintaining romantic and sexual relationships and for surviving in an intolerant social environment He then goes on to trace how urban parks plazas cinemas and beaches are appropriated for same sex erotic encounters bringing us into the world of street cruising male hustlers and cross dressing prostitutes Through his creative use of police and medical records newspapers literature newsletters and extensive interviews Green has woven a fascinating history the first of its kind for Latin America that will set the standard for future works Green brushes aside outworn cultural assumptions about Brazil's queer life to display its full glory as well as the troubles which homophobia has sent its way This latest gem in Chicago's World of Desire series offers a shimmering view of queer Brazilian life throughout the 20th century Kirkus Reviews Winner of the 2000 Lambda Literary Awards Emerging Scholar Award of the Monette Horwitz Trust Winner of the 1999 Hubert Herring Award Pacific Coast Council on Latin American Studies *Travels in the East Indian Archipelago* Albert Smith Bickmore,1869 *In Between* Margit Grieb,Yves-Antoine Clemmen,Will Lehman,2019 The essays in this anthology probe and comment on the space time issue between in aesthetic or linguistic productions in a variety of cultures For over three decades the Southeast Conference on Foreign Languages Literatures and Film SCFLLF which convenes biennially has been and continues to be a showcase for scholarship in the Humanities with a special emphasis on non English language area studies In 2018 at the 23rd SCFLLF fifty three national and international scholars presented their research on linguistics literature film culture and language pedagogy The essays we selected to showcase all probe and comment on the space time issue between in aesthetic or linguistic productions in a variety of cultures We have organized these contributions in three parts entitled Part I Between Fiction and Reality Part II Between Continuity and Transformation and Part III Between Conformity and Resistance *The Rise and Fall of the Biopsychosocial Model* S. Nassir Ghaemi,2010-01-01 2010 Outstanding Academic Title Choice Magazine This is the first book length historical critique of psychiatry's mainstream

ideology the biopsychosocial BPS model Developed in the twentieth century as an outgrowth of psychosomatic medicine the biopsychosocial model is seen as an antidote to the constraints of the medical model of psychiatry Nassir Ghaemi details the origins and evolution of the BPS model and explains how where and why it fails to live up to its promises He analyzes the works of its founders George Engel and Roy Grinker Sr traces its rise in acceptance and discusses its relation to the thought of William Osler and Karl Jaspers In assessing the biopsychosocial model Ghaemi provides a philosophically grounded evaluation of the concept of mental illness and the relation between evidence based medicine and psychiatry He argues that psychiatry s conceptual core is eclecticism which in the face of too much freedom paradoxically leads many of its adherents to enact their own dogmas Throughout he makes the case for a new paradigm of medical humanism and method based psychiatry that is consistent with modern science while incorporating humanistic aspects of the art of medicine Ghaemi shows how the historical role of the BPS model as a reaction to biomedical reductionism is coming to an end and urges colleagues in the field to embrace other less eclectic perspectives **Journal of Special Operations Medicine** ,2006
