Hydrographic Office,1923 **William III and the Godly Revolution** Tony Claydon,1996 This is the first extensive account of royal propaganda in England between 1689 and 1702 It demonstrates that the regime of William III did not rely upon legal or constitutional rhetoric as it attempted to legitimate itself after the Glorious Revolution but rather used a protestant providential and biblically based language of courtly reformation This language presented the king as a divinely protected godly magistrate who could both defend the true church against its popish enemies and restore the original piety and virtue of the elect English nation Concentrating upon a range of hitherto understudied sources especially sermons and public prayers the book demonstrates the vigour with which these ideas were broadcast by an imaginative group of propagandists enabling the king to cope with central political difficulties the need to attract support for wars with France and the need to work with Parliament The Practice of Navigation and Nautical Astronomy ...
