GRADE 11

Economics Grade 11 Unit one #1

UNIT 1: THEORY OF CONSUMER BEHAVIOR AND DEMAND

UNIT 1

THEORY OF CONSUMER BEHAVIOR AND DEMAND

INTRODUCTION

Consumers are one of the five economic agents in economic systems. The remaining agents are business firms, government and the entrepreneurs. These agents pursue their own goals. Consumers, for instance, aim to maximize satisfaction from what they consume given their limited resources.

In this section, we study the satisfaction maximization behavior of a representative consumer with pre-defined assumptions to shape the behavior of the agent. We start the analysis by reviewing the cardinal utility theory followed by derivation of the demand curve. The next activity is a study of consumer behavior using ordinal utility theory.
