

THYSSENKRUPP ELEVATOR SAFETY GUIDELINES

thyssenkrupp Elevator underscores safety guidelines for the urban mobility industry during pandemic

- Advises that all mobility units, especially elevators, must be cleaned more frequently
- Emphasizes the significance of predictive maintenance for technical equipment
- Properly working elevators and escalators are critical in institutions like hospitals

As one of the world's leading service providers, thyssenkrupp Elevator is aware of its responsibility to ensure ongoing mobility in buildings, especially for crucial infrastructures such as health and public facilities. The company is therefore making every effort to ensure that its services remain fully available to all customers, while further elaborating the industry's health and safety norms.

The service teams remain on duty when it comes to preventive maintenance activities and call-backs of elevator and escalator systems to ensure the availability of thyssenkrupp systems. All emergency call services are in place and fully operational.

thyssenkrupp Elevator is reinforcing the recommendations of governmental and health authorities, with specific directives on how to use mobility equipment in the current scenario. Moreover, the company implemented measures for extra precaution and makes sure that special conditions at customer sites are adhered to.

In view of the current situation, thyssenkrupp Elevator has developed some concrete rules of conduct for users and operators of mobility solutions to mitigate the spread of Covid-19.
