Kālacakra and the Tibetan Calendar Edward Henning, 2007 Kalacakra and the Tibetan Calendar describes the contents of current Tibetan almanacs from basic mathematics to symbolic and historical information Essential for understanding the Kalacakra Tantra's first chapter this book describes the origin of the calendrical systems in this Tantra and translates and elucidates the relevant sections from its famous commentary the Vimalaprabha The main calendars in use in Tibet today have remained unchanged since the 15th century when lamas in several different traditions tried to make sense of the calculation systems they had inherited from India and to adjust them to remove increasingly obvious errors This book analyzes the main systems that survive today assessing their accuracy and comparing them with the methods described in the original Tantra Published by American Institute of Buddhist Studies AIBS

Frontier Tibet Stéphane Gros, 2025-10-01 *Frontier Tibet* Patterns of Change in the Sino Tibetan Borderlands addresses a historical sequence that sealed the future of the Sino Tibetan borderlands It considers how starting in the late nineteenth century imperial formations and emerging nation states developed competing

schemes of integration and debated about where the border between China and Tibet should be It also ponders the ways in which this border is internalised today creating within the People's Republic of China a space that retains some characteristics of a historical frontier The region of eastern Tibet called Kham the focus of this volume is a productive lens through which processes of place making and frontier dynamics can be analysed Using historical records and ethnography the authors challenge purely externalist approaches to convey a sense of Kham's own centrality and the agency of the actors involved They contribute to a history from below that is relevant to the history of China and Tibet and of comparative value for borderland studies

My Appeal to the World His Holiness The Dalai Lama, 2015-03-10 His Holiness the Fourteenth Dalai Lama is the foremost spokesperson for the people of the Tibetan Plateau although his home is in India in the Himalayan foothills where he has been forced to live in exile since 1959 As a Buddhist monk his main focus has been the spiritual life and the leadership of his people in exile ensuring their survival and preserving their unique Buddhist culture while appealing to the world to stop the destruction of their homeland and the six million Tibetans oppressed within it Every March 10th from 1961 until 2011 in commemoration of the greatest uprising of the Tibetan people against the Chinese military occupation the Dalai Lama delivered an appeal to the world on behalf of his people Each statement is a heartfelt call to recognize the truth and the factual reality of Tibet's history and situation a cry for help a plea for justice and a pledge of determination to withstand the worst and to overcome In these annual addresses he began to articulate and fully express his overarching appeal to humanity All of the Dalai Lama's March 10th speeches at their most poignant and eloquent are collected here introduced and historically contextualized by Sofia Stril Rever an author and scholar of Tibetan history and culture and Buddhist spirituality who has long served as his French translator Here in this book is his appeal to us all The people of all nations have heard it and have tried to help but their governments still have not dared to stand up effectively for justice on behalf of the Tibetan people and for recognition of the basic human rights to which we all are entitled The question therefore remains Who will finally respond to this appeal in time to prevent the ultimate disaster that is looming on the roof of the world

Glimpses of Tibetan Divination, 2019-11-04 Glimpses of Tibetan Divination Past and Present is the first book of its kind in that it contains articles by a group of eminent scholars who approach the subject matter by investigating it through various facets and salient historical figures Over the centuries Tibetans developed many practices of prognostication and adapted many others from neighboring cultures and religions In this way Tibetan divination evolved into a vast field of ritual expertise that has been largely neglected in Tibetan Studies The Tibetan repertoire of divinatory techniques is rich and immensely varied Accordingly the specimen of practices discussed in this volume many of which remain in use today merely serve as examples that offer glimpses of divination in Tibet Contributors are Per Kv rne Brandon Dotson Ai Nishida Dan Martin Petra Maurer Charles Ramble Donatella Rossi Rolf Scheuermann Alexander Smith and Agata Bareja Starzynska

Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures Helaine Selin, 2013-11-11 The Encyclopaedia fills a gap in both the history of science and in cultural studies Reference works on other cultures tend either to omit science completely or pay little attention to it and those on the history of science almost always start with the Greeks with perhaps a mention of the Islamic world as a translator of Greek scientific works The purpose of the Encyclopaedia is to bring together knowledge of many disparate fields in one place and to legitimize the study of other cultures science Our aim is not to claim the superiority of other cultures but to engage in a mutual exchange of ideas The Western academic divisions of science technology and medicine have been united in the Encyclopaedia because in ancient cultures these disciplines were connected This work contributes to redressing the balance in the number of reference works devoted to the study of Western science and encourages awareness of cultural diversity The Encyclopaedia is the first compilation of this sort and it is testimony both to the earlier Eurocentric view of academia as well as to the widened vision of today There is nothing that crosses disciplinary

and geographic boundaries dealing with both scientific and philosophical issues to the extent that this work does xi

One-Volume Libraries: Composite and Multiple-Text Manuscripts Michael Friedrich, Cosima Schwarke, 2016-11-07
Composite and multiple text manuscripts are traditionally studied for their individual texts but recent trends in codicology have paved the way for a more comprehensive approach Manuscripts are unique artefacts which reveal how they were produced and used as physical objects While multiple text manuscripts codicologically are to be considered as production units i e they were originally planned and realized in order to carry more than one text composites consist of formerly independent codicological units and were put together at a later stage with intentions that might be completely different from those of its original parts Both sub types of manuscripts are still sometimes called miscellanies a term relating to the texts only The codicological difference is important for reconstructing why and how these manuscripts which in many cases resemble or contain a small library were produced and used Contributions on the manuscript cultures of China India Africa the Islamic world and European traditions lead not only to the conclusion that one volume libraries have been produced in many manuscript cultures but allow also for the identification of certain types of uses Buddhaksetraparisodhana Charles DiSimone, Nicholas Witkowski, 2024-11-25 Buddhaksetraparisodhana is a volume in honor of the Buddhologist and Philologist Paul M Harrison George Edwin Burnell Professor of Religious Studies at Stanford University The contributions of twenty nine of his colleagues students and friends from across the globe are dedicated to his academic interests and represent a cross section of the disciplines that have been so heavily influenced by Paul Harrison s scholarship in the past decades Buddhist Studies Indology Sinology Tibetology and Art History Jonang: The One Hundred and Eight Teaching Manuals Jamgon Kongtrul Lodro Taye, 2021-01-26 Jamg n Kongtrul Lodr Taye presents practical teachings from a variety of Tibetan Buddhist traditions in this volume of The Treasury of Precious Instructions The Treasury of Precious Instructions by Jamg n Kongtrul Lodr Taye one of Tibet s greatest Buddhist masters is a shining jewel of Tibetan literature presenting essential teachings from the entire spectrum of practice lineages that existed in Tibet In its eighteen volumes Kongtrul brings together some of the most important texts on key topics of Buddhist thought and practice as well as authoring significant new sections of his own In this the eighteenth volume Kongtrul expands on The One Hundred and Eight Guidebooks a collection of teaching manuals compiled by the sixteenth century Tibetan master Kunga Drolchok adding Indic source texts Tibetan antecedents and later interpretations Though compiled by a Jonangpa abbot and transmitted by the Jonang tradition these teaching manuals are actually drawn from the Kadam Sakya Kagyu and to a lesser extent Nyingma traditions They are succinct and impart practical wisdom as transmitted by key figures like Kunga Chogdrub and Lowo Khenchen Sonam Lhundrub Gyurme Dorje the translator provides extensive notes and helpful context throughout The resulting volume preserves and integrates the diverse lineages of Tibetan Buddhism while providing useful advice to practitioners **Our Debt to the Dog** Bryan D.

Cummins,2013-11-07 When Homo sapiens sapiens met Canis lupus lupus millennia ago the result was Canis lupus familiaris the domestic dog Since that fateful encounter the dog has become arguably humankind s greatest creation The domestic dog is the most widely distributed species other than ourselves in the world being found virtually wherever people live and is also the most diversified of species with literally hundreds of recognized breeds While we have shaped the dog it too has helped shape human history in innumerable ways Our Debt to the Dog is a critical historical and cross cultural examination through the use of case studies of this most improbable 15 000 year relationship and an exploration of how this relationship shaped the history of the world It is also very much an apology to the dog because over the course of the partnership horrific acts were perpetrated against it intentionally and otherwise Our Debt to the Dog enriches our understanding of the dog and extends our appreciation for the profound complexity of past and present human canine relationships and the dog s contributions to our lives and our world
