

rying capacity is always
whether on road or
it's why the DT125LC
is a sturdy standard
truck as standard.

The motorcross-style fuel tank holds 10 litres
of petrol. Contoured seat allows aggressive
riding plus low-up touring capability and is
only 615mm from the ground.

Control switches are neatly
designed for one finger
operation. Specially
designed throttle
minimises risk of
damage in a fall.

A neat, compact head coil houses the 12-volt
quartz-halogen headlamp. Its
light weight means that
it has little inertia
effect on slow-speed steering.

Flexible plastic air-ducts draw a cooling blast
across the compact, light-alloy radiator.
This is flexibly mounted to the chassis and
has a tubular-steel guard around it.

Large, flexible plastic front fender
allows the DT125LC rider to stay
clean on the street and prevent mud
buildup on the trail.

Leading axle front forks have
clarity, 10mm dampers to resist
off-road deflections. They have
240mm of smooth wheel
movement thanks to anti-
flexion. The Metal bushes

Lightweight rims help reduce
unsprung weight and add to
lighter, more precise handling.

A six-speed gearbox allows the
DT125LC rider to keep his
engine always on the power-
band. Close ratios assist in
this, as does the VT
motorcross-type porting
mechanism.

The Yamaha Energy Induction
System uses a remote reservoir to
hold incoming fuel on the exhaust
stroke, then adding to the next
intake charge. The result is
smoother combustion, more torque
and about 10% improvement in fuel
efficiency.

The expansion chamber exhaust
system is mounted high, out of
harm's way. Its underside has a
special anti-corrosion coating.

Four more interesting standard equipment.

The cradle frame, with lightweight plastic
engine guard, allows 285mm of ground
clearance. Frame-mounted passenger footrests
mean more comfortable low-up riding.
