The Linguistic Past in Twelfth-Century Britain Sara Harris, 2017-10-12 How was the complex history of Britain's languages understood by twelfth century authors This book argues that the social political and linguistic upheavals that occurred in the wake of the Norman Conquest intensified later interest in the historicity of languages An atmosphere of enquiry fostered vernacular literature's prestige and led to a newfound sense of how ancient languages could be used to convey historical claims The vernacular hence became an important site for the construction and memorialisation

of dynastic institutional and ethnic identities This study demonstrates the breadth of interest in the linguistic past across different social groups and the striking variety of genre used to depict it including romance legal translation history poetry and hagiography Through a series of detailed case studies Sara Harris shows how specific works represent key aspects of the period s imaginative engagement with English Brittonic Latin and French language development

The Oxford History of Classical Reception in English Literature Rita Copeland,2016-01-28 The Oxford History of Classical Reception in English Literature OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This first volume and fourth to appear in the series covers the years c 800 1558 and surveys the reception and transformation of classical literary culture in England from the Anglo Saxon period up to the Henrician era Chapters on the classics in the medieval curriculum the trivium and quadrivium medieval libraries and medieval mythography provide context for medieval reception The reception of specific classical authors and traditions is represented in chapters on Virgil Ovid Lucan Statius the matter of Troy Boethius moral philosophy historiography biblical epics English learning in the twelfth century and the role of antiquity in medieval alliterative poetry

The medieval section includes coverage of Chaucer Gower and Lydgate while the part of the volume dedicated to the later period explores early English humanism humanist education and libraries in the Henrician era and includes chapters that focus on the classicism of Skelton Douglas Wyatt and Surrey *Saint Cecilia in the Renaissance* John A. Rice, 2022-07-04 This study uncovers how Saint Cecilia came to be closely associated with music and musicians Until the fifteenth century Saint Cecilia was not connected with music She was perceived as one of many virgin martyrs with no obvious musical skills or interests During the next two centuries however she inspired many musical works written in her honor and a vast number of paintings that depicted her singing or playing an instrument In this book John A Rice argues that Cecilia s association with music came about in several stages involving Christian liturgy visual arts and music It was fostered by interactions between artists musicians and their patrons and the transfer of visual and musical traditions from northern Europe to Italy Saint Cecilia in the Renaissance explores the cult of the saint in Medieval times and through the sixteenth century when musicians guilds in the Low Countries and France first chose Cecilia as their patron The book then turns to music and the explosion of polyphonic vocal works written in Cecilia s honor by some of the most celebrated composers in Europe Finally the book examines the wealth of visual representations of Cecilia especially during the Italian Renaissance among which Raphael s 1515 painting The Ecstasy of Saint Cecilia is but the most famous example Thoroughly researched and beautifully illustrated in color Saint Cecilia in the Renaissance is the definitive portrait of Saint Cecilia as a figure of musical and artistic inspiration

Land and Literature in a Cosmopolitan Age Vincent P. Pecora, 2020-02-13 European culture after the Franco Prussian War of 1870 71 was no stranger to ancient beliefs in an organic religiously sanctioned and aesthetically pleasing relationship to the land The many resonances of this relationship form a more or less coherent whole in which the supposed cosmopolitanism of the modern age is belied by a deep commitment to regional nationalist and civilizational attachments including a justifying theological armature much of which is still with us today This volume untangles the meaning of the vital geographies of the period including how they shaped its literature and intellectual life *The Great Rift* Michael E. Hobart, 2018-04-16 Michael Hobart locates the great rift between science and religion not in ideological disagreement but in advances in mathematics and symbolic representation that moved past language to open new windows onto the natural world His work connects the cognitive breakthroughs of the past with intellectual debates ongoing in the twenty first century

Hayashi,2014-04-23 The Freedom of Peaceful Action is the first installment of the trilogy The Nature of Liberty which makes an ethical philosophic case for individual liberty and the free market against calls for greater government regulation and control The trilogy makes a purely secular and nonreligious ethical case for the individual s rights to life liberty private property and the pursuit of happiness as championed by the U S Founding Fathers Inspired by such philosophic defenders of free enterprise as John Locke Herbert Spencer and Ayn Rand The Nature of Liberty shows that such individual rights are not imaginary or simply assertions but are institutions of great practical value making prosperity and happiness possible to the degree that society recognizes them The trilogy demonstrates the beneficence of the individual rights approach by citing important findings in the emerging science of evolutionary psychology Although the conclusions of evolutionary psychology have been long considered to be at odds with the philosophies of individual liberty and free markets The Nature of Liberty presents a reconciliation that reveals their ultimate compatibility as various important findings of evolutionary psychology being logically applied confirm much of what philosophic defenders of liberty have been saying for centuries Moreover proceeding from the viewpoint of Rand this work argues that the structure of society most conducive to practical human well being is commensurately the most moral and humane approach as well The trilogy s first installment The Freedom of Peaceful Action focuses on the secular philosophic foundation for a society based on individual rights Starting from a defense of the efficacy of observational reason against criticisms from Immanuel Kant and Karl Popper it demonstrates how a philosophic position of individual liberty and free markets is the logical result of the consistent application of human reason to observing human nature This installment demonstrates that any political system that wishes for its citizens to thrive must take human nature into account and that an accounting of human nature reveals that a system of maximum liberty and property protection is the one most conducive to peace and human well being The Horse Review Harness Racing Guide and Trotting and Pacing Breeders' Directory for ... ,1917
