Zitarelli, 2022-10-25 This is the first truly comprehensive and thorough history of the development of mathematics and a
mathematical community in the United States and Canada This first volume of the multi volume work takes the reader from
the European encounters with North America in the fifteenth century up to the emergence of a research community the
United States in the last quarter of the nineteenth In the story of the colonial period particular emphasis is given to several
prominent colonial figures Jefferson Franklin and Rittenhouse and four important early colleges Harvard Qu'bec William
Mary and Yale During the first three quarters of the nineteenth century mathematics in North America was largely the
occupation of scattered individual pioneers Bowditch Farrar Adrain B Peirce This period is given a fuller treatment here than
previously in the literature including the creation of the first PhD programs and attempts to form organizations and found
journals With the founding of Johns Hopkins in 1876 the American mathematical research community was finally and firmly
founded The programs at Hopkins Chicago and Clark are detailed as are the influence of major European mathematicians
