Thomas Guide New Release:

Steelpan Ambassadors Andrew R. Martin, 2017-06-16 Maybe you won't like steel band. It's possible. But it's been said that the Pied Piper had a steel band helping him on his famous visit to Hamelin. When the US Navy distributed this press release, anxieties and tensions of the impending Cold War felt palpable. As President Eisenhower cast his gaze towards Russia, the American people cast their ears to the Atlantic South, infatuated with the international currents of Caribbean music. Today, steelbands have become a global phenomenon. Yet in 1957, the exotic sound and the unique image of the US Navy Steel Band was one of a kind. Could calypso doom rock n' roll? Band founder Admiral Daniel V. Gallery thought so and envisioned his steelband knocking rock n' roll and Elvis Presley into the ash can. From 1957 until their disbandment in 1999, the US Navy Steel Band performed over 20,000 concerts worldwide. In 1973, the band officially moved headquarters from Puerto Rico to New Orleans and found the city and annual Mardi Gras tradition an apt musical and cultural fit. The band brought a significant piece of Caribbean artistic capital, calypso and steelband music, to the American mainstream. Its impact on the growth and development of steelpan music in America is enormous. Steelpan Ambassadors uncovers the lost history of the US Navy Steel Band and provides an in-depth study of its role in the development of the US military's public relations, its promotion of goodwill, its recruitment efforts after the Korean and Vietnam Wars, its musical and technological innovations, and its percussive propulsion of the American fascination with Latin and Caribbean music over the past century. *The Rough Guide to Rock* Peter Buckley, 2003 Compiles career biographies of over 1,200 artists and rock music reviews written by fans covering every phase of rock from R & B through punk and rap. **Press Releases** United States. But now any business can be devastated virtually overnight by something better and cheaper. How can executives protect themselves and harness the power of Big Bang Disruption? Just a few years ago, drivers happily spent more than \$200 for a GPS unit. But as smartphones exploded in popularity, free navigation apps exceeded the performance of stand-alone devices. Eighteen months after the debut of the navigation apps, leading GPS manufacturers had lost 85 percent of their market value. Consumer electronics and computer makers have long struggled in a world of exponential technology improvements and short product life spans. But until

recently hotels taxi services doctors and energy companies had little to fear from the information revolution Those days are gone forever Software based products are replacing physical goods And every service provider must compete with cloud based tools that offer customers a better way to interact Today start ups with minimal experience and no capital can unravel your strategy before you even begin to grasp what s happening Never mind the innovator s dilemma this is the innovator s disaster And it s happening in nearly every industry Worse Big Bang Disruptors may not even see you as competition They don t share your approach to customer service and they re not sizing up your product line to offer better prices You may simply be collateral damage in their efforts to win completely different markets The good news is that any business can master the strategy of the start ups Larry Downes and Paul Nunes analyze the origins economics and anatomy of Big Bang Disruption They identify four key stages of the new innovation life cycle helping you spot potential disruptors in time And they offer twelve rules for defending your markets launching disruptors of your own and getting out while there s still time Based on extensive research by the Accenture Institute for High Performance and in depth interviews with entrepreneurs investors and executives from more than thirty industries Big Bang Disruption will arm you with strategies and insights to thrive in this brave new world The Living Church ,1993 *The American Piano Concerto Compendium* William Phemister,2018-06-20 The second edition of William Phemister s *The American Piano Concerto Compendium* reveals to professional and amateurs pianists alike a vast collection of available compositions by American composers Analysis expands outside mainstream concerto styles to include those considered experimental or popular derivatives The range of music flows from Pulitzer Prize winners like Samuel Barber Gail Kubik and John LaMontaine to lesser known multi ethnic composers such as Tania Le n and Samuel Zyman to old standards like Edward MacDowell and the first piano concerto written by an American born composer Otis B Boise 1875 to the cutting edge avant garde of Milton Babbitt and Elliott Carter just to name a few These all contribute to the varied narrative that animates American piano music With forty percent more works described documented and reviewed than were listed in the 1985 first edition from the College Music Society this second edition is a valuable resource not only for pianists and conductors but also for orchestras teachers students music historians and critics collectors and concert attendees **The Invisible Art of Film Music** Laurence E.
