Nottinghamshire Nick Crouch, Jason Reece, David Parkin, 2019 The last comprehensive review of Nottinghamshire's birds was produced more than four decades ago Much has changed since then and a new avifauna is long overdue This book draws together historic reports from the nineteenth century records from the files of the county bird club Nottinghamshire Birdwatchers and data from national and regional surveys and monitoring programmes The resulting account presents an overview of the present state of the county's birdlife set against a context of environmental and climatic change The gravel pits in the Trent and Idle Valleys form major corridors for birds moving across Britain and Nottinghamshire has attracted more than its share of national rarities These include Britain's first Egyptian Nightjar and Lesser Yellowlegs in the nineteenth century Bufflehead Redhead Cedar Waxwing and breeding Black-winged Stilts in the twentieth century and a memorable nesting attempt by European Bee-eaters in 2017 The woods and heaths of Sherwood lying in the middle of the county also provide a haven for an array of iconic species including European Nightjar Eurasian Woodcock Honeybuzzard and Hawfinch This book describes the past and present status of the 334 species that have been recorded in Nottinghamshire up to 2018 Lavishly illustrated with photographs taken within the county and sketches from the internationally recognised artist Michael Warren it is intended to be an authoritative reference to the birds of Nottinghamshire Time-Integrative Geographic Information Systems Thomas Ott, Frank Swiaczny, 2001-02-27 CD ROM contains Examples and code from text *Human Rights and Private Law* Katja S Ziegler, 2007-04-26 Privacy today is much debated as an individual's right against real or feared intrusions by the state as exemplified by proposed identity cards and surveillance measures in the United Kingdom In contrast invasions of privacy by private individuals or bodies tend to arouse less concern This book attempts to fill the gap by looking at the horizontal application of human rights after *Douglas v Hello* *Campbell v MGN* and *Caroline von Hannover v Germany* It provides a conceptual and theoretical framework and also considers specific particularly sensitive areas of law relating to privacy protection such as intellectual property employment and media law It provides comparative perspectives by relating Article 8 of the European Convention on Human Rights which serves as a focal point to UK Dutch German and European Communities law Several common threads are revealed running across jurisdictions and different areas of law and aspects of privacy The most notable is the definition of privacy in terms of the autonomy of the individual a notion associated with the liberal state in the classic sense but now acquiring more content as a human right also linked to ideas of social justice **The Intensification of Surveillance** Kirstie Ball, Frank Webster, 2003-09-20 Our public and private lives are under surveillance as never before Whether we are shopping with a credit card walking down the street or emailing a colleague at work our activities are closely monitored Since September 11th 2001 surveillance has intensified further Yet although individuals groups governments and states are more closely monitored our security is not assured This book explores the vast range of issues related to increased surveillance What is going on in an area clouded by secrecy from the state and complacent reassurances from corporations How do we track suspects and combat crime without also eroding our

civil liberties and sacrificing our rights to privacy Does electronic tagging of prisoners work What are retailers up to with lifestyle profiling Focusing on these and other issues such as paedophilia money laundering information warfare cybercrime and related legislation this book spotlights benefits and costs of surveillance and suggests how it is likely to develop in the future

Bruseath and employing a team of archaeologists and volunteers Amid the shallow waters of Matagorda Bay a steel cofferdam was constructed around the site creating one of the most complex nautical archaeological excavations ever attempted in North America and allowing the archaeologists to excavate the sunken wreck much as if it were located on dry land The ship's hold was discovered full of everything the would-be colonists would need to establish themselves in the New World more than 1.8 million artifacts were recovered from the site

More than two decades in the making due to the immensity of the find and the complexity of cataloging and conserving the artifacts this book thoroughly documents one of the most significant North American archaeological discoveries of the twentieth century **Popular Music in Contemporary Bulgaria** Asya Draganova,2019-03-07 On the crossroads between the cultural influences of perceived global models and local specificity entangled in webs of post communist complexity Bulgarian popular music has evolved as a space of change and creativity on the edge of Europe An ethnographic exploration this book accesses insight from music figures from a spectrum of styles *Economic Policy* Jim Tomlinson,2004 Documentary focusing on the legendary Goodwood Motor Circuit a high speed track which started out as the perimeter of an RAF base during World War II The programme covers Goodwood s history from its creation through to the present day
