Letter Works: Building Early Literacy Skills Mary Chappell,2003-08-08 Week long units for each letter of the alphabet reinforce developing literacy skills Read aloud activities songs centers and snacks provide connections to language arts math science and social studies concepts Teach these stand alone units in order or flow from one theme to the next Folktales Retold Amie A. Doughty,2006-03-31 Folktales and fairy tales are living stories as part of the oral tradition they change and evolve as they are retold from generation to generation In the last thirty years however revision has become an art form of its own with tales intentionally revised to achieve humorous effect send political messages add different cultural or regional elements try out new narrative voices and more These revisions take all forms from short stories to novel length narratives to

poems plays musicals films and advertisements The resulting tales paint the tales from myriad perspectives using the broad palette of human creativity This study examines folktale revisions from many angles drawing on examples primarily from revisions of Western European traditional tales such as those of the Grimm Brothers and Charles Perrault Also discussed are new folktales that combine traditional storylines with commentary on modern life The conclusion considers how revisionists poke fun at and struggle to understand stories that sometimes made little sense to start with

Pig Brett Mizelle, 2012-01-01 Known as much for their pink curly tails and pudgy snouts as their low brow choice of diet and habitat pigs are prevalent in popular culture from the Three Little Pigs to Miss Piggy to Babe Today there are more than one billion pigs on the planet and there are countless representations of pigs and piggishness throughout the world s cultures In *Pig* Brett Mizelle provides a richly illustrated and compelling look at the long complicated relationship between humans and these highly intelligent sociable animals Mizelle traces the natural and cultural history of the pig focusing on the contradictions between our imaginative representation of pigs and the real world truth of the ways in which pigs are prized for their meat used as subjects in medical research and killed in order to make hundreds of consumer products *Pig* begins with the evolution of the suidae animals that were domesticated in multiple regions 9 000 years ago and points toward a future where pigs and humans are even more closely intertwined as a result of biomedical breakthroughs *Pig* both examines

the widespread art entertainment and literature that imagines human kinship with pigs and the development of modern industrial pork production In charting how humans have shaped the pig and how the pig has shaped us Mizelle focuses on the unresolved contradictions between the fiction and the reality of our relations with pigs *The Common Core in Grades K-3* Roger Sutton, Daryl Grabarek, 2014-09-26 The Common Core in Grades K 3 is the second in a series of comprehensive tools to tap into the vast flow of recently published books for children and teens offering recommendations of exemplary titles for use in the classroom Currency meets authority brought to you by the editors of the highly regarded review sources School Library Journal and The Horn Book Magazine This guide includes hundreds of selections for grades K 3 published since 2007 recommended by The Horn Book Magazine The titles are grouped by subject and complemented by School Library Journal's Focus On columns which spotlight specific topics across the curriculum Providing context for the guide and suggestions on how to use these resources within a standards framework is an introduction by Common Core experts Mary Ann Cappiello and Myra Zarnowski These educators provide perspective on the key changes brought by the new standards including suggestions on designing lessons and two sample plans Following the introduction you'll find a wealth of books by category Note that the guide is Dewey Decimal based so you may want to dig around for example in Social Sciences to find some titles that you might first seek in History or Science Each section includes a listing of the top titles with brief explicit annotations and key bibliographic data Focus On articles are appended to appropriate categories to support in depth curricular development Each of these articles includes a topic overview and list of current and retrospective resources including some fiction and multimedia enabling educators to respond to the Common Core State Standards call to work across formats Picturing the Wolf in Children's Literature Debra Mitts-Smith, 2012-12-06 From the villainous beast of Little Red Riding Hood and The Three Little Pigs to the nurturing wolves of Romulus and Remus and Rudyard Kipling's The Jungle Book the wolf has long been a part of the landscape of children's literature Meanwhile since the 1960s and the popularization of scientific research on these animals children's books have begun to feature more nuanced views In Picturing the Wolf in Children's Literature Mitts Smith analyzes visual images of the wolf in children's books published in Western Europe and North America from 1500 to the present In particular she considers how wolves are depicted in and across particular works the values and attitudes that inform these depictions and how the concept of the wolf has changed over time What she discovers is that illustrations and photos in works for children impart social cultural and scientific information not only about wolves but also about humans and human behavior First encountered in childhood picture books act as a training ground where the young learn both how to decode the symbolic wolf across various contexts and how to make sense of real wolves Mitts Smith studies sources including myths legends fables folk and fairy tales fractured tales fictional stories and nonfiction highlighting those instances in which images play a major role including illustrated anthologies chapbooks picture books and informational books This book will be of interest to children's literature scholars as

well as those interested in the figure of the wolf and how it has been informed over time *Authors in the Pantry* Sharron L. McElmeel, Deborah L.
