Threshold Concepts in Women's and Gender Studies Christie Launius, Holly Hassel, 2022-03-30 *Threshold Concepts in Women's and Gender Studies Ways of Seeing Thinking and Knowing* is a textbook designed primarily for introduction to Women's and Gender Studies courses with the intent of providing both a skill and concept based foundation in the field. The third edition includes fully revised and expanded case studies and updated statistics in addition the content has been updated throughout to reflect significant news stories and cultural developments. The text is driven by a single key question: What are the ways of thinking, seeing and knowing that characterize Women's and Gender Studies and are valued by its practitioners? This book illustrates four of the most critical concepts in Women's and Gender Studies: the social construction of gender, privilege and oppression, intersectionality and feminist praxis, and grounds these concepts in multiple illustrations. *Threshold Concepts in Women's and Gender Studies* develops the key concepts and ways of thinking that students need to develop a deep understanding and to approach material like feminist scholars do across disciplines. *The Educator's Handbook for Understanding and Closing Achievement Gaps* Joseph Murphy, 2010. Beginning with a remarkably comprehensive and accessible analysis of the gap, the book offers a refreshingly balanced evidence-based state of the art outline of productive solutions that should inform the work of all educational stakeholders. Ken Leithwood, Professor OISE, University of Toronto. No one is better positioned than Joseph Murphy to provide lessons for education leaders on this important topic. Andrew Porter, George and Diane Weiss, Professor of Education, University of Pennsylvania. For too long the achievement gap has been proclaimed, discussed and then dismissed as a subject of despair. Seldom has it been systematically defined, placed in historical perspective or positively addressed. Through thorough scholarship, comprehensive knowledge and creativity, this book fills that void. James W. Guthrie, Patricia and Rodes Hart, Professor of Educational Leadership and Public Policy, Vanderbilt University. While offering no simple pathway to progress, this book reminds us how much more we can do to close achievement gaps. Michael S. Knapp, Director, Center for the Study of Teaching Policy, University of Washington. Distinguished researcher Joseph F. Murphy has gathered and analyzed the most up-to-date research and data to help headteachers understand what the achievement gap is, why it persists, and what teachers can do about it. This comprehensive handbook examines external factors that contribute to achievement gaps, such as socioeconomic status, family environment, racism, and individual differences. Covers internal factors such as instruction, school culture, and school support. Provides strategies for addressing both internal and external factors to make an impact. **Principles and Practice of Constraint Programming - CP 2002** Pascal Van Hentenryck, 2003-08-02.
