Anansi and the Wisdom Pot

West Africa

Name: _____

Directions: Read the folktale below and answer the questions.

One day, Anansi the Spider decided to visit the sky god, Nyame, to ask him for the world's wisdom. At first, the sky god refused to give it to him, but Anansi was so persistent that the sky god finally gave him all the wisdom in the world. The sky god placed the wisdom in a clay pot and made Anansi promise to share the wisdom with everyone. Anansi agree to do so and took the wisdom pot home with him.

When Anansi looked into the wisdom pot, he saw things he had never seen before and learned things he had never dreamed of before. All of this knowledge excited Anansi, and soon he decided that he would not share this wisdom with anyone. He wanted to keep all of the wisdom for himself. Immediately, Anansi searched for a place to hide the wisdom pot. He looked around the forest until he found a tall, thorny tree, with lots of green leaves.

Anansi took some vines and tied the pot in front of him. Then, he started to climb the tree. Even with eight arms though, it was challenging. The pot was constantly in the way and made it all the more difficult to climb. Now on that particular day, one of Anansi's sons, Ntikuma, had followed him, unbeknownst to his father. Ntikuma had watched Anansi struggling to climb the tree and he stood there shaking his head. As Anansi stopped to rest, he heard his son speak to him from the ground below. "Why don't you tie the pot to your back, instead? That way, all of your arms would be free to help you climb."

At first, Anansi recognized what a good idea this was, and he tied the pot to his back. As Anansi climbed to the top of the tree though, he became more and more irritated. He realized that although he had all of the wisdom of the world in this pot, his son had a better idea than he did. In anger, Anansi took the pot and threw it down to the ground. The clay pot broke into tiny pieces, and all of the wisdom of the world was scattered everywhere by the wind... And that is why no one has all of the world's wisdom, but people everywhere have small bits of it.

Cognition, Metacognition, and Reading Donna-Lynn Forrest-Pressley,T. Gary Waller,2013-03-12 We had our first conversation about cognition metacognition and reading in September of 1976 Our particular concern was with reading and learning to read and what if anything meta cognition might have to do with it all We didn t really know much about metacognition then of course but then most other people were in the same predicament Some people had been working with interesting approaches and results on metalanguage and reading among them J Downing L Ehri L Gleitman 1 Mattingly and E Ryan and it also was about that time that people were becoming aware of E Markman s first studies of comprehension monitoring Other than that perhaps the most influential item around was the perhaps already classic monograph by Kruetzer Leonard and Flavell on what children know about their own memory Also in the air at that time were things like A Brown s notions about knowing knowing about know ing and knowing how to know D Meichenbaum s ideas about cognitive behavior modification and the work by A Brown and S Smiley on the awareness of important units in text

Even though these developments were cited as new and innovative it was not the case that psychologists had never before been of questions They certainly interested in or concerned with metacognitive sorts had as clearly evidenced by the notion of metaplans in Miller Galanter and Pribram s Plans and the Structure of Behavior *Assessment for Reading Instruction, Third Edition* Michael C.
