Smart Cities Paul Doherty, 2023-04-13 In a post pandemic world amid environmental crises and advances in technology the dynamics of what the average city looks like have called for change leaving governments and policymakers to reimagine urban planning and development In *Smart Cities Reimagining the Urban Experience* Paul Doherty shares his organization's secret sauce recipe to marry information technology infrastructure design thinking with sustainable development goals SDGs for building smart cities Paul dives into strategies master plans work templates and real world examples This book will disrupt existing paradigms to offer practitioners urban developers and policymakers some solutions to creating greater social responsibility in a human centric data driven world

China's Cyber Warfare Jason R. Fritz, 2017-03-21 The turn of the century was accompanied by two historically significant phenomena One was the emergence of computer networks as a vital component of advanced militaries and interdependent global economic systems The second concerned China's rise on the global stage through economic reforms that led to sustained growth and military modernization At the same time Chinese government policies and actions have drawn international criticisms including persistent allegations of online espionage domestic Internet censorship and an increased military capability all of which utilize computer networks These threat perceptions are heightened by a lack of transparency Unlike the United States or the North Atlantic Treaty Organization China does not articulate its strategic doctrine Further open source material on this topic is often contradictory cursory and unclear due in part to the absence of consensus on cyber related terminology and the infancy of this field With a focus on the period 1998 to 2016 this book identifies and analyzes the strategic context conceptual framework and historical evolution of China's cyber warfare doctrine
