Study of Suicide in Rural China Yanwu Liu, 2023-03-03 This book identifies and analyzes the significant regional differences in suicide rates of various age groups and different sexes among Chinese rural residents It goes beyond the analytic dichotomy in traditional Western suicide studies and argues that the phenomena of suicide among Chinese farmers are the result of a combination of social structure and social action rather than being determined by either of these two factors alone This study analyses suicide rates among young married women in rural areas as well as those of elderly people in rural areas The responsive trend for the near future is also projected The underlying dynamics and causal mechanisms of these phenomena are carefully analyzed using an innovative structure action theory framework **Hard Times (Fourth International Student Edition) (Norton Critical Editions)** Charles Dickens, 2016-08-22 An excellent collection of critical and social commentary that will help to make Dickens image of Victorian England meaningful to all students John Howard Wilson Dakota Wesleyan University This Norton Critical Edition includes Sylvere Monod s superbly edited text based on the 1854 edition and accompanied by Fred Kaplan s expanded annotations Fourteen illustrations from 1854 to circa 1890 Contextual pieces by social critics and theorists of Dickens time that give readers outstanding examples of views on industrialism education and utilitarianism in the nineteenth century Eight new critical essays by Paulette Kidder David M Levy Christopher Barnes Theodore Dalrymple Christina Lupton Efraim Sicher Nils Clausson and Kent Greenfield and John E Nilsson A Chronology and a Selected Bibliography **Translating Warhol** Reva Wolf, 2024-07-11 The first study of the translations of Andy Warhol s writing and ideas Translating Warhol reveals how translation has alternately censored exposed or otherwise affected the presentation of his political and social positions and attitudes and in turn the value we place on his art and person Andy Warhol is one of the most influential artists of the 20th century and a vast global literature about Warhol and his work exists Yet almost nothing has been written about the role of translations of his words in his international reputation Translating Warhol fills this gap developing the topic in multiple directions and in the context of the reception of Warhol s work in various countries The numerous translations of Warhol s writings words and ideas offer a fertile case study of how American art was and is viewed from the outside Both historical and theoretical aspects of translation are taken up and individual chapters discuss French German Italian and Swedish translations Warhol s translations of his mother s native Rusyn language and culture the Indian artist Bhupen Khakhar s performative translations of Warhol and Warhol as translated for documentary television Translating Warhol offers a fascinating multi faceted perspective on Warhol contributing to our understanding of his place in history as well as to translation theory and inter cultural exchange **The Question of German Unification** Imanuel Geiss, 2013-12-16 The course of recent German history has been volatile Events in Eastern Europe the collapse of European Communism and German Re Unification has brought issues of Germany s status into the arena of world
