Masculinity and Emotion in Early Modern English Literature Jennifer C. Vaught, 2016-12-05 The first full length treatment of how men of different professions social ranks and ages are empowered by their emotional expressiveness in early modern English literary works this study examines the profound impact of the cultural shift in the English aristocracy from feudal warriors to emotionally expressive courtiers or gentlemen on all kinds of men in early modern English literature Jennifer Vaught bases her analysis on the epic lyric and romance as well as on drama pastoral writings and biography by Shakespeare Spenser Sidney Marlowe Jonson and Garrick among other writers Offering new readings of these works she traces the gradual emergence of men of feeling during the sixteenth and seventeenth centuries to the blossoming of this literary version of manhood during the eighteenth century

Documentary History of the American Bible Union American Bible Union, 1857 **Weeping Britannia** Thomas Dixon, 2015-09-10 There is a persistent myth about the British that we are a nation of stoics with stiff upper lips repressed emotions and inactive lachrymal glands Weeping Britannia the first history of crying in Britain comprehensively debunks this

myth Far from being a persistent element in the national character the notion of the British stiff upper lip was in fact the product of a relatively brief and militaristic period of our past from about 1870 to 1945 In earlier times we were a nation of proficient sometimes virtuosic moral weepers To illustrate this perhaps surprising fact Thomas Dixon charts six centuries of weeping Britons and theories about them from the medieval mystic Margery Kempe in the early fifteenth century to Paul Gascoigne's famous tears in the semi finals of the 1990 World Cup In between the book includes the tears of some of the most influential figures in British history from Oliver Cromwell to Margaret Thatcher not forgetting George III Queen Victoria Charles Darwin and Winston Churchill along the way But the history of weeping in Britain is not simply one of famous tear stained individuals These tearful micro histories all contribute to a bigger picture of changing emotional ideas and styles over the centuries touching on many other fascinating areas of our history For instance the book also investigates the histories of painting literature theatre music and the cinema to discover how and why people have been moved to tears by the arts from the sentimental paintings and novels of the eighteenth century and the romantic music of the nineteenth to Hollywood weepies expressionist art and pop music in the twentieth century Weeping Britannia is simultaneously a museum of tears and a philosophical handbook using history to shed new light on the changing nature of Britishness over time as well as the ever shifting ways in which we express and understand our emotional lives The story that emerges is one in which a previously rich religious and cultural history of producing and interpreting tears was almost completely erased by the rise of a stoical and repressed British empire in the late nineteenth century Those forgotten philosophies of tears and feeling can now be rediscovered In the process readers might perhaps come to view their own tears in a different light as something more than mere emotional incontinence **The Kaaterskill Edition of Washington Irving ...** Washington Irving, 1880

Everyday Life in the Covid-19 Pandemic Nick Clarke, 2024-04-18 How will the Covid 19 pandemic be remembered What did it mean to people How did it feel This book provides a compelling account of the pandemic as it was experienced in the UK *Everyday Life in the Covid 19 Pandemic* is a democratic history based on the 5 000 diaries collected by Mass Observation on 12 May 2020 It is a record of what many of these diarists wrote from a wide range of positions in a variety of voices and on a wealth of different subjects The book shines a light on their lives on the day in question their experiences during the first two months of the pandemic and their hopes and fears for the coming months and years The diaries capture much of everyday life in the pandemic for millions of people in the UK and beyond the activities events and rituals from funerals to working from home the sites and stages from shops to Zoom the roles and categories from key workers to vulnerable groups the frames from luck to the new normal and the moods from anxiety to grief In these diaries we see what people did when the pandemic arrived in the UK but also what people thought and felt how they interpreted the pandemic experience and gave it meaning We see both how the nation responded and the nation who responded The book also includes two essays offering expert contextualisation of the diaries and discussion of their value for narrating the pandemic and presenting everyday life
