Democracy's Lot Candice Rai, 2016-04-15

Traces the communication strategies of various constituencies in a Chicago neighborhood offering insights into the challenges that beset diverse urban populations and demonstrating persuasively rhetoric's power to illuminate and resolve charged conflicts. Candice Rai's *Democracy's Lot* is an incisive exploration of the limitations and possibilities of democratic discourse for resolving conflicts in urban communities. Rai roots her study of democratic politics and publics in a range of urban case studies focused on public art, community policing, and urban development. These studies examine the issues that erupted within an ethnically and economically diverse Chicago neighborhood over conflicting visions for a vacant lot called Wilson Yard. Tracing how residents with disparate agendas organized factions and deployed language, symbols, and other rhetorical devices in the struggle over Wilson Yard's redevelopment and other contested public spaces, Rai demonstrates that rhetoric is not solely a tool of elite communicators but rather a framework for understanding the agile communication strategies that are improvised in the rough and tumble work of democratic life. Wilson Yard, a lot eight blocks north of Wrigley Field in Chicago's gentrifying Uptown neighborhood, is a diverse enclave of residents enlivened by recent immigrants from Guatemala, Mexico, Vietnam, Ethiopia, and elsewhere. The neighborhood's North Broadway Street witnesses a daily multilingual hubbub of people from a wide spectrum of income levels, religions, sexual identifications, and interest groups. When a fire left the lot vacant, this divided community projected on Wilson Yard disparate and conflicting aspirations, the resolution of which not only determined the fate of this particular urban space but also revealed the lot of democracy itself as a process of complex problem solving. Rai's detailed study of one block in an iconic American city brings into vivid focus the remarkable challenges that beset democratic urban populations anywhere on the globe and how rhetoric supplies a framework to understand and resolve those challenges. Based on exhaustive field work, Rai uses rhetorical ethnography to study competing publics, citizenship, and rhetoric in action, exploring rhetorical invention, the discovery or development by individuals of the resources or methods of engaging with and persuading others. She builds a case for democratic processes and behaviors based not on reflexive idealism but rather on the hard work and practice of democracy which must address apathy, passion, conflict, and ambivalence.

Manhood in Hollywood from Bush to Bush David Greven,2010-01-01 A struggle between narcissistic and masochistic modes of manhood defined Hollywood masculinity in the period between the presidencies of George H W Bush and George W Bush David Greven s contention is that a profound shift in representation occurred during the early 1990s when Hollywood was transformed by an explosion of films that foregrounded non normative gendered identity and sexualities In the years that have followed popular cinema has either emulated or evaded the representational strategies of this era especially in terms of gender and sexuality One major focus of this study is that in a great deal of the criticism in both the fields of film theory and queer theory masochism has been positively cast as a form of male sexuality that resists the structures of normative power while narcissism has been negatively cast as either a regressive sexuality or the bastion of white male privilege Greven argues that narcissism is a potentially radical mode of male sexuality that can defy normative codes and categories of gender whereas masochism far from being radical has emerged as the default mode of a traditional normative masculinity This study
