How are staff and material requirements for state staging area operations identified? How many warehouses should be established? Is a copy of the Occupational Health and Safety Act posted? If you were to measure and track ITAM metrics, what should you measure and why? Does the facility prohibit or prevent any discharges or dumping into any water body? Defining, designing, creating and implementing a process to solve a challenge or meet an objective is the most valuable role. In EVERY group, company, organization and department. Unless you are talking about a one-time single use project, there should be a process. Whether that process is managed and implemented by humans, AI or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, "What are we really trying to accomplish here?" And is there a different way to look at it? This Self Assessment empowers people to do just that, whether their title is entrepreneur, manager, consultant, Vice President, CxO, etc. They are the people who rule the future.
